Our STORY

Now available in more than 100 countries around the world, Aqualung pioneered the creation of modern diving equipment when **Captain Jacques-Yves Cousteau** teamed with engineer **Emile GAGNAN** in 1943 to develop the first “aqualung,” making **underwater exploration possible**. Aqualung is committed to providing sustainable, innovative, reliable, and easy-to-use products that allow adventure seekers to enjoy responsible water exploration and continues to set the industry standard for water sports equipment in technology, comfort, safety and design.

Our WORLD

At Aqualung we believe that **underwater exploration** is an **unexpected journey** from which you can’t come back unchanged. A journey where the unbelievable becomes believable, where emotions and sensations are multiplied. An unexpected journey that enriches each of us. That is why we keep on questioning the status quo, daring to think differently so we can offer every explorer the safest and most advanced water gear for their quest. At Aqualung we provide the most advanced water gear enabling anyone to reconnect with oceans and go **beyond the expected**.

TECHNICAL EXCELLENCE

Underwater exploration was forever changed with the innovation of the Aqua-Lung, known today as the regulator. We are proud to represent more than 80 years of history, of taking underwater exploration to new depths, and, above all, of Technical Excellence.

DIVE CENTER

Aqualung has a long history of partnering with dive centers, a journey that began on October 17, 1960, with the opening of CIP, the world’s first diving academy. Soon after, the renowned Spiro Dive Centers followed, as well as the Aqualung Partner Center program. Today, this global network consists of over 4,000 Aqualung Dive Centers. We are now relaunching this program, stronger and more committed than ever to supporting our partners with resources, visibility, and opportunities for growth.

Benefits of being an Aqualung Dive Center

GET ACCESS TO PREMIUM EQUIPMENT

- **High-quality gear:** reliable, top-tier equipment enhances the dive experience, improving both safety and customer satisfaction.
- **Exclusive products:** exclusive gear specifically designed for rental use, available only to Aqualung Dive Centers.
- **Instructor gear:** premium and innovative equipment at special pricing to outfit your instructors with the best in the industry.

INCREASE YOUR PROFITABILITY & BUSINESS

- **Special pricing & sales conditions:** access special sale conditions and pricing that increase profitability for your Dive Center.

RECEIVE TRAINING & TECHNICAL SUPPORT

- **Free global training:** access to free training programs for your staff, ensuring they're equipped with the best knowledge and skills.
- **Comprehensive after-sales service:** enjoy worldwide after-sales support for product maintenance as we will recommend Aqualung dealers and/or offer training for your employees.

BOOST YOUR VISIBILITY

- **Marketing assets:** access to a range of promotional materials, such as lifestyle products, signage, stickers, flags etc. to help your Dive Center stand out.
- **Cooperative marketing & advertising:** benefit from joint promotional efforts, including being listed as an official Aqualung Dive Center on our website and Social Media channels, increasing visibility and attracting new customers.

Products information[®]

Aqualung Products - Built for your Dive Center's Success

Choosing to collaborate with Aqualung means accessing a robust and durable selection of dive equipment, effective sales tools, and industry-leading expertise designed to boost your dive center's profitability and operational efficiency.

② SUPERIOR DURABILITY FOR DEMANDING CONDITIONS

Aqualung rental products are engineered to withstand the toughest environments, from harsh UV rays and saltwater exposure to chlorine and extreme cold. This unmatched durability ensures long-lasting equipment, reducing replacement costs and keeping your inventory in prime condition.

② DISTINCTIVE AND INNOVATIVE DESIGN

Stand out with Aqualung's distinctive product design, filled with unique, innovative features/ color that capture attention and set your Dive Center apart. Divers will value using cutting-edge equipment that enhances safety, comfort, and their overall diving experience.

② QUICK AND SIMPLE MAINTENANCE

Our equipment is designed for efficiency, requiring minimal tools and fewer replacement parts. This translates to quicker maintenance, reduced downtime, and more time for your team to focus on delivering exceptional service to your customers.

② SIMPLIFIED SIZE IDENTIFICATION WITH VISUAL COLOR CODING

Our unique color-coded identification system allows you and your team to immediately determine the size of each piece of equipment, just by a quick visual check. Each size has its own distinct color, making it easy to organize and identify gear both in your Dive Center and the rental area.

EQUIP YOUR DIVE CENTER WITH CONFIDENCE

With a reputation built on quality and innovation, Aqualung is trusted by dive professionals around the world. By partnering with us, your Dive Center will offer exceptional diving experiences, backed by industry expertise and products designed to meet both business and customer needs.

Rental Sizes

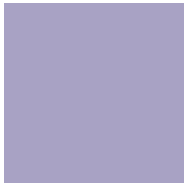

Thanks to our innovative color-coded system, each size is assigned a distinct color clearly marked on key areas of the equipment. This allows your team to quickly identify and organize gear, streamlining your rental process and ensuring divers get the perfect fit every time. The visual guide below shows how the color coding works and where size markings are located on our products.

BCD Wave

Regulators[®]

Calypso

The Calypso regulator, always emulated but never equaled, stands as the pinnacle of reliability and performance. Compact, lightweight, and effortlessly maintainable, it has set the industry standard for decades. This regulator embodies durability and dependability, excelling even in the most demanding conditions, making it the perfect choice for both beginner divers seeking ease and dive centers demanding reliability. The Calypso Nitrox is compatible up to 100% of oxygen and delivered with a M26x2 connecto (EN144-3).

Designed and made in France.

Technical Features

1st stage

DUST CAP PROTECTION
Attached to the regulator body, the Dust Cap protects the inlet fitting and the Auto Closure Device from impacts and damage. It also seals the 1st stage when it's off the tank.

2nd stage

COMFOBITE
A patented and comfortable mouthpiece featuring a unique palate bridge reduces jaw fatigue and securely holds the 2nd stage in place. Made from hypoallergenic silicone, the orthodontic mouthpiece is both soft and sturdy.

INTERCHANGEABLE MOUTH PIECE
The detachable and reusable mouthpiece clamp allows for quick and simple tool-free change, avoiding plastic waste.

RG16111	CALYPSO YOKE
RG126113	CALYPSO DIN
RG126116	CALYPSO NITROX EN144-3

Titan

The third-generation **Titan** regulator embodies innovation while maintaining exceptional value. Built upon the legacy of its predecessors, this regulator combines a lightweight, durable design 2nd stage with effortless breathing functionality. Its reliable and robust build ensures excellent performance and at an affordable price. With its easy-to-maintain, compact, and comfortable design, the Titan regulator is an ideal choice, especially suited for beginners diving into their adventures.

Designed and made in France.

Technical Features

1st stage

DUST CAP PROTECTION
Attached to the regulator body, the Dust Cap protects the inlet fitting and the Auto Closure Device from impacts and damage. It also seals the 1st stage when it's off the tank.

BLUE HIGH PRESSURE SEAT
The core of the 1st stage, this seat opens and closes with every breath, forming a perfect seal with durable materials that work in all conditions and with all gasses.

2nd stage

COMFOBITE
A patented and comfortable mouthpiece featuring a unique palate bridge reduces jaw fatigue and securely holds the 2nd stage in place. Made from hypoallergenic silicone, the orthodontic mouthpiece is both soft and sturdy.

INTERCHANGEABLE MOUTH PIECE
The detachable and reusable mouthpiece clamp allows for quick and simple tool-free change, avoiding plastic waste.

RG128111	TITAN YOKE
RG128112	TITAN DIN

Calypso / Titan Octopus

Enhance your diving kit alongside your Calypso and Titan regulators with this dependable and easy-breathing octopus. Designed for reliability and ease of use, it seamlessly complements your gear. Its high-visibility yellow hose provides quick identification in emergency situations, ensuring added safety and peace of mind during your dives.

Designed and made in France.

MEASURING POINTS FOR OTS LENGTH

instruments[®]

i100

New divers, this one's for you: entry-level pricing, essential functionality, and simple, one-button navigation. Select from four operating modes and manage two gases. The **i100** also retains all your settings and calculations during battery changes. Stay safe with audible alarms and a high-visibility LED warning light.

- NS13811700
- NS13811701

Technical Features

- High-visibility LED warning light.
- 4 operating modes.
- User-Changeable Battery.
- Two Gases.

Pressure Gauge

The Aqualung **Pressure Gauge** delivers both remaining air pressure and temperature in one easy-to-read display.

- NS114123 ASSY - PSI
- NS114124 ASSY - BAR

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Nitrox compatible up to 50%.
- Swiss made, shock resistant Bourdon tube.
- Luminescent gauge face for easy reading in low light.
- Oneway safety valve.
- Integrated temperature scale.
- Hoselength is 36”/ 91.44cm.

2 Gauge Console Pressure & Depth

Our **2-gauge** console includes a **Pressure Gauge**, **Depth Gauge** and Writing Slate. Designed with ease-of-use and simplicity in mind, the pressure and depth gauge displays are designed with such features as a luminescent gauge face for easy reading in low light. In addition, the 2-gauge console can be easily upgraded in the future with the addition of a Compass.

- NS114117 2 GAUGE - IMP
- NS114118 2 GAUGE - MET

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Nitrox compatible up to 50%.
- Swiss made, shock resistant Bourdon tube.
- Luminescent gauge face for easy reading in low light.
- Oneway safety valve.
- Integrated temperature scale.
- Hoselength is 36”/ 91.44cm.

3 Gauge Console Pressure & Depth & Compass

Our **3-gauge** console includes a **Pressure Gauge**, **Depth Gauge** and **Compass**. Designed with ease-of-use and simplicity in mind, the pressure and depth gauge displays are designed with such features as a luminescent gauge face for easy reading in low light.

- NS114121 3 GAUGE, MET, NH

Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated.
- Nitrox compatible up to 50%.
- Swiss made, shock resistant Bourdon tube.
- Luminescent gauge face for easy reading in low light.
- Oneway safety valve.
- Integrated temperature scale.
- Hoselength is 36”/ 91.44cm.

MES[®]

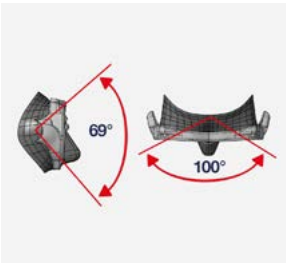

Look

The **Look** mask is a rugged, classically styled two-lens mask, while the frame and skirt are designed to fit a wide range of facial types. The **Look** skirt has been updated with the Advanced Fit Technology (AFT), which uses bands of textured silicone around the edge of the skirt resulting in a superior seal against the face.

- MS5440101LC
- MS5440107LC
- MS5440073LC
- MS5440015LC

Technical Features

ADVANCED FIT TECHNOLOGY
Only available from Aqualung, AFT creates varying textures within the silicone so it can better conform to any face shape to improve sealing and comfort.

Zephyr Flex

- SN135113

Technical Features

- At the very heart of the snorkel is our shaped and protected silicone Elliptical Purge Valve: the shape of the valve guarantees sealing as well as ease of purging.
- The anatomically-designed mouthpiece made from medical silicone reduces jaw fatigue.
- The joint between the mouthpiece/valve box and the corrugate is a swiveling sealed connection that rotates for a better fit.
- The large snorkel retainer is very easy to use even with thick gloves, thanks to an ergonomically-designed structure.
- The D-barrel-shaped tube helps the Zephyr Flex rest more streamlined against the diver's face.

Air Dry

- SN114112

- Vent system over the tube reduces water splash-in.
- Lower reservoir with two purge valves.
- Flexothane tube is supple yet resistant.
- Comfo-bite silicone mouthpiece.

Storm

The **Storm** is a great all-around fin ideal for travel. Produced using Monprene, a single material construction gives both durability and strength while maintaining exceptionally light weight, exactly what the traveling diver requires. The innovative foot pocket design has the advantage of a full foot fin for comfort with the versatility of an open-heel fin for adjustments. Available for juniors and adults they can be worn with light boots or barefoot.

Technical Features

- **FULL-POCKET DESIGN**
High comfort, no booties required. Full-pocket fins give you increased perception of your kicks effect on the water. Foot pocket is made of soft material for comfort.
- **RESPONSIVE, DUAL-MATERIAL CONSTRUCTION**
Blade is made of lightweight polypropylene with rubber inserts for durability and elasticity. Structured side ribs ensure progressive, controlled flexing of the fin.
- **STABLE FIT**
Grip on inner sole ensures stability by preventing your feet from sliding around inside the fin. This means you're less likely to lose your fin or waste energy from your foot moving inside the pocket.
- **RIGID SOLE**
The rigid sole offers optimal foot protection and smooth power transition to the blade.

Amika

Explore the ocean gracefully with the **Amika** snorkeling fins. The elastic straps provide great comfort and the fins light weight durability makes it great for travel.

Technical Features

CHANNEL STRUCTURE
Molded channels are structured for smoother water movement over the blade, producing strong movements in any water conditions.

MID FOOT PIVOT POINT (PATENT)
The fin blade connects via dual pivot points to the middle of the foot pocket, allowing for a natural foot position, larger range of motion, and increased control.

wetsuits[®]

Wave modular system

The **Wave modular** wetsuit system provides versatile options that are durable and comfortable. The modular system addresses wetsuit needs for a variety of water temperatures—from 13° to 25°C (55°F -77°F). For colder waters, there is the 6mm jumpsuit with hood attached and front zipper. For warmer water, the reversible shorty offers the right solution. Thanks to the high-density neoprene, the size markings inside and outside (one color per size), and the white personal identification field to write the number of the suit along the zipper, the **Wave collection** provides the perfect solution for intensive use.

Wave 6mm with Hood

Technical Features

- 6mm high density neoprene (petroleum free).
- Ring seals on arms and legs stop water entry.
- Durable thanks to the double-glued, two-thread blind-stitched seams.
- All seam junctions are sealed by a small patch to offer superior warmth, comfort and durability.
- Ankle zipper on the model with ergonomical hood attached and front zipper.
- Powertex knee panel for more durability.

Wave Junior Jumpsuit with Hood

The key to stoking a lifelong desire for adventure in kids is to provide a small amount of challenge, create opportunities for wonder, and minimize discomfort. That's why we've designed the **Wave Junior** wetsuit, an ultra-stretchy, low-bulk kid's wetsuit to keep small bodies insulated. Give them the chance to reach for something new. Full 5mm/7mm neoprene suit for all kids (from 6 to 16 years old).

Technical Features

- 5mm/7mm Neoprene super stretch.
- Reflective logo at the back of the leg
- Supratex knee panel for durability.
- Optional attachable hood sold seperately.
- Zipper on ankles to pull on and off easily.
- Lime colored panels for increased visibility underwater.

MAXIMIZE YOUR DIVE CENTER'S VISIBILITY

By partnering with us, you unlock exclusive opportunities to expand your reach, showcase your dive center to a broader audience, and attract new customers. Join us, and together we'll bring more divers to your doors!

Your Benefits:

1 Event Organization

Partnering with us could open doors to organizing exciting events that attract divers. We carefully evaluate opportunities on a case-by-case basis to determine where we can collaborate. When selected, we can leverage our database to bring new customers directly to your door, increasing visibility for your Dive Center. These events offer a chance to connect with engaged and potential clients, showcase your services, and even book dive trips on-site.

2 Website Visibility

Be featured on our Store Locator, where thousands of potential divers browse regularly. This increased exposure ensures that customers can easily find your Dive Center, leading to more inquiries and bookings.

3 Social Media Promotion

Expand your social media presence as we'll promote your Dive Center across our social media accounts, helping spread the word to our large audience. This gives you the visibility and credibility needed to attract more divers.

SIMPLIFYING MAINTENANCE FOR YOUR DIVE CENTER

Aqualung is committed to making equipment maintenance easy and efficient for your Dive Centers. We offer two convenient options to keep your rental gear in top shape:

1 Trusted Service Partners:

Aqualung connects you with authorized service partners or our own Technical Center for professional maintenance.

2 In-House Training:

We provide hands-on training to certify your Dive Center's technician, enabling you to handle in-house maintenance with confidence and expertise.

Annual Certification Program for your Dive Center technicians

Each year, Aqualung offers scheduled training sessions designed specifically for Dive Center employees, focusing on the maintenance of Aqualung products. This technical training ensures that your employees are equipped with the skills necessary to keep your rental equipment performing at its best.

Strict Standards for regulator maintenance

For optimal performance, Aqualung and Apeks regulators must be maintained by certified technicians with up-to-date credentials. We provide your technician with access to the latest maintenance manuals to maintain these essential pieces of equipment to the highest standards.

Certification that ensures quality and reliability

Upon completing the training, your technician will earn a certification that qualifies them to expertly maintain your Dive Center's rental gear. This certification is exclusive to use within your center and must be renewed every three years to maintain proficiency.

**With Aqualung's support,
you can trust that your
Dive Center's equipment
remains safe, reliable, and
ready for every dive.**
