OUR SUSTAINABILITY MISSION

Pollution caused by plastic, micro-beads and ghost fishing nets are harming whales, sea turtles, dolphins and other marine life. At Zoggs we are taking action, we're on a mission to reduce our impact as a business on the environment.

From greener packaging and reduction of single use plastics, to recycled fabrics made from plastic bottles, and supporting various environmental causes, we believe in doing everything we can to preserve our planet for the future. Our ambition is to become a greener more eco conscious brand as part of the war on plastic.

LENSES

REACTOR

EN Photochromic lenses adjust to different light conditions and react to sunlight. Ideal for partially sunny days.

IT Le lenti fotocromatiche si adattano alle diverse condizioni di luce e reagiscono alla luce del sole. Ideale per le giornate parzialmente soleggiate.

DE Photochromatische Gläser passen sich unterschiedlichen Lichtverhältnissen an und reagieren auf Sonnenlicht. Ideal für teilweise sonnige Tage.

FR Les verres photochromatiques s'adaptent à différentes conditions d'éclairage et réagissent à la lumière du soleil. Idéal pour les journées partiellement ensoleillées.

ES Las lentes fotocromáticas se adaptan a diferentes condiciones de luz y reaccionan a la luz solar. Son ideales para días parcialmente soleados.

POLARIZED ULTRA

EN Polarized Ultra lenses increase contrast for sharper and improved vision, providing a higher contrast with anti-glare properties. The copper Polarized Ultra lens filters harmful blue rays to prevent eye fatigue in both bright and low light - the perfect lens for all conditions.

IT Le lenti Polarized Ultra aumentano il contrasto per una visione più nitida e migliorata, fornendo effetto maggiore combinato alle caratteristiche antiriflesso. La lente ambrata filtra i raggi Blu dannosi per prevenire l'affaticamento agli occhi sia in condizioni di luce intensa che di scarsa luminosità - lente perfetta per tutte le condizioni.

DE Polarized Ultra-Gläser erhöhen den Kontrast für eine schärfere und bessere Sicht und bieten einen höheren Kontrast mit blendfreien Eigenschaften. Die kupferfarbenen Polarized Ultra-Gläser filtern schädliche blaue Strahlen, um Ermüdungserscheinungen der Augen sowohl bei hellem als auch bei schwachem Licht zu verhindern - das perfekte Glas für alle Bedingungen.

FR Ultra polarisé - Les verres polarisés Ultra augmentent le contraste pour une vision plus nette et améliorée, offrant un contraste plus élevé avec des propriétés anti-éblouissantes. La lentille Polarized Ultra cuivré filtre les rayons bleus nocifs pour éviter la fatigue oculaire en lumière vive et faible - la lentille parfaite pour toutes les conditions.

ES Las lentes Polarized Ultra aumentan el contraste para una visión óptima y más nítida y ofrecen un mayor contraste con propiedades antideslumbramiento. Las lentes Polarized Ultra de color cobre filtran la dañina luz azul para evitar la fatiga ocular en ambientes con mucha o poca luz. Son las gafas perfectas para todo tipo de situaciones.

POLARIZED

EN Polarized lenses increase contrast for sharper and improved vision, providing a higher contrast and anti-glare properties. Ideal for high level light and especially in direct sunshine, when sun is low on the horizon.

IT Polarizzato - Le lenti Polarized Ultra aumentano il contrasto per una visione più nitida e migliorata, fornendo effetto maggiore combinato alle caratteristiche antiriflesso.

DE Polarized - Polarisierte Gläser erhöhen den Kontrast für eine schärfere und bessere Sicht und bieten einen höheren Kontrast und blendfreie Eigenschaften. Ideal für hohe Lichtpegel und besonders bei direktem Sonnenschein, wenn die Sonne tief am Horizont steht.

FR Polarisé - Les verres polarisés augmentent le contraste pour une vision plus nette et améliorée, offrant un contraste plus élevé et des propriétés anti-éblouissantes. Idéal pour un éclairage de haut niveau et surtout en plein soleil, lorsque le soleil est bas à l'horizon.

ES Polarized - Las lentes Polarized aumentan el contraste para una visión óptima y más nítida y ofrecen un mayor contraste con propiedades antideslumbramiento. Ideal para niveles altos de luz y, sobre todo, para la luz solar directa, cuando el sol está cerca del horizonte.

EN Contoured profile lenses offers an expansive field of vision

IT Le lenti dal profilo sagomato offrono un ampio campo visivo

DE Konturierte Profilgläser bieten ein weites Sichtfeld

FR Les lentilles profilées offrent un champ de vision étendu

ES Las lentes de perfil contorneado ofrecen un amplio campo de visión

EN Curved Lens Technolocy (CLT) offers the swimmer 180° degree peripheral vision and crystal clear clarity. Ideal for swimming in a crowd, or with others in your lane.

IT Tecnologia a lenti incurvate (CLT) - Tecnologia a lenti incurvate (CLT) - visione periferica non distorta a 180°

DE Curved Lens Technolgy (CLT) - CLT bietet dem Schwimmer 180° Grad periphere Sicht und kristallklare Klarheit. Ideal zum Schwimmen in einer Menschenmenge oder mit anderen in Ihrer Bahn.

FR Technologie des verres incurvés - CLT offre au nageur une vision périphérique à 180 ° et une clarté cristalline. Idéal pour nager dans une foule ou avec d'autres personnes dans votre couloir.

ES Tecnología de lentes curvas (CLT) - La tecnología CLT ofrece al nadador una visión periférica de 180º y una claridad cristalina. Ideal para nadar en un lugar muy concurrido o si hay otras personas nadando en el mismo carril.

UV PROTECTION

EN UV Protection - Zoggs includes UV protection as a standard feature on all goggles. As well as our standard UV360, we have introduced UV400 maximum protection which blocks 99%-100% of the sun's harmful UV rays, to ensure swimming is as safe as it is enjoyable.

IT Protezione UV - Zoggs include la protezione UV come caratteristica standard su tutti gli occhialini. Oltre al nostro standard UV360, abbiamo introdotto la protezione massima UV400 che blocca il 99%-100% dei raggi UV dannosi del sole, per garantire che il nuoto sia sicuro e divertente.

DE UV-Schutz - Zoggs bietet standardmäßig UV-Schutz für alle Schwimmbrillen an. Zusätzlich zu unserem Standard UV360 haben wir den maximalen UV400-Schutz eingeführt, der 99 % bis 100 % der schädlichen UV-Strahlen der Sonne blockiert, um sicherzustellen, dass das Schwimmen so sicher wie angenehm ist.

FR Protection UV - Zoggs inclut une protection UV en standard sur toutes les lunettes. En plus de notre UV360 standard, nous avons introduit une protection maximale UV400 qui bloque 99% à 100% des rayons UV nocifs du soleil, pour vous assurer que la baignade est aussi sûre que agréable.

ES Protección frente a los rayos ultravioleta - Zoggs incluye protección ante los rayos ultravioleta como característica estándar de todas sus gafas. Junto a nuestro estándar UV360, hemos introducido UV400, la protección de máxima potencia que bloquea el 99-100 % de los rayos dañinos del sol para garantizar que la natación es segura a la par que agradable.

ANTI FOG

EN Anti-Fog - Fogbuster offers extra moisture control for real clarity of vision, and a stress free swim.

IT Il trattamento anti appannamento - Fogbuster offre un controllo superiore dell'umidità per una reale limpidezza di visione e una nuotata senza stress.

DE Anti-Beschlag - Fogbuster bietet zusätzliche Feuchtigkeitskontrolle für echte Klarsicht und ein stressfreies Schwimmen.

FR Anti-buée - Fogbuster offre un contrôle supplémentaire de l'humidité pour une vraie clarté de vision et une baignade sans stress.

ES Antivaho - Fogbuster ofrece un control adicional de la humedad para poder nadar sin estrés y ver con absoluta claridad.

CV

EN Clear View (CV) Lens - Amplify light in low level conditions and reduce the sun's glare providing excellent clarity and vision.

IT Lenti CV - Amplificano la luce in condizioni di luminosità ridotta e diminuiscono il riverbero del sole fornendo nitidezza e visibilità eccellenti.

DE CV Linse - Verstärken Sie das Licht bei schlechten Lichtverhältnissen und reduzieren Sie die Blendung durch die Sonne, um eine hervorragende Klarheit und Sicht zu gewährleisten.

FR Lentilles CV - Amplifiez la lumière dans des conditions de faible niveau et réduisez l'éblouissement du soleil pour une clarté et une vision excellentes.

ES Lentes de visión clara (CV) - Amplían la luz en entornos con poca luminosidad y reducen el deslumbramiento para proporcionar una claridad y visión excelentes.

FRAMES & GASKETS

ADVANCED ULTRA FIT™

EN Our traditional gasket has been completely re-engineered. It's made from high grade silicone for a 10% softer gasket seal, with enhanced contouring of the upper and lower rim.
In combination this makes for a lighter feel and even more comfortable fit - perfect for hours in the water.

IT La nostra guarnizione tradizionale è stata completamente riprogettata. È fatta di silicone di alta qualità per una tenuta della guarnizione più morbida del 10%, con una migliore sagomatura del bordo superiore e inferiore. Questa combinazione dona una sensazione più leggera e una vestibilità ancora più confortevole - perfetta per le ore in acqua.

DE Unsere traditionelle Dichtung wurde komplett neu entwickelt. Sie ist aus hochwertigem Silikon für eine 10 % weichere Dichtung, mit verbesserter Konturierung des oberen und unteren Rand gemacht. In Kombination sorgt dies für ein leichteres Gefühl und eine noch komfortablere Passform - perfekt für Stunden im Wasser.

FR Notre joint traditionnel a été entièrement repensé. Il est fabriqué à partir de silicone de haute qualité pour un joint d'étanchéité 10% plus souple, avec un contour amélioré de la jante supérieure et inférieure. En combinaison, cela donne une sensation plus légère et un ajustement encore plus confortable - parfait pendant des heures dans l'eau.

ES Hemos rediseñado completamente nuestra junta tradicional. Está hecha de silicona de gran calidad para lograr una junta un 10 % más blanda y se ha mejorado el contorno de los bordes superior e inferior de la junta. Gracias a estas modificaciones, es más ligera y cómoda de usar; perfecta para permanecer horas en el agua.

SILICONE

EN Creates a long-lasting personalised seal around your eyes, for a unique leak-free fit. Designed to provide even pressure distribution across your face. Silicone hypo-allergenic to avoid skin irritation and phthalate free.

IT Crea un'aderenza personalizzata e di durevole intorno ai tuoi occhi, per una vestibilità unica senza perdite. Progettato per fornire una distribuzione uniforme della pressione sul viso. Silicone ipoallergenico per evitare irritazioni alla pelle e senza ftalati.

DE Silikon - Erzeugt eine lang anhaltende, personalisierte Abdichtung um Ihre Augen herum, für einen einzigartigen, dichten Sitz. Entwickelt, um eine gleichmäßige Druckverteilung über Ihr Gesicht zu gewährleisten. Silikon ist hypoallergen, um Hautreizungen zu vermeiden, und frei von Phthalaten.

FR Sillicone - Crée un joint personnalisé durable autour de vos yeux, pour un ajustement unique sans fuite. Conçu pour fournir une répartition uniforme de la pression sur votre visage. Silicone hypoallergénique pour éviter les irritations cutanées et sans phtalate.

ES Silicona - Crea un sellado personalizado y duradero alrededor de los ojos para un ajuste único y sin fugas. Diseñado para distribuir la presión de forma equilibrada por el rostro. Silicona hipoalergénica y sin ftalatos para evitar la irritación de la piel.

SOFT SKIRT

EN Creates a smooth seal against the face for no marks on your skin

IT Genera una tenuta stagna liscia contro il viso senza segni sulla pelle

DE Erzeugt eine glatte Abdichtung auf dem Gesicht und hinterlässt keine Spuren auf der Haut

FR Crée une jupe lisse contre le visage pour un confort accru et sans marque sur votre peau

ES Genera un sellado suave contra la cara sin dejar marcas en la piel

SHAPED NOSE BRIDGE

EN Shaped to accommodate a variety of face shapes and sizes

IT Ponticello nasale sagomato per adattarsi a visi di varie forme e taglie

DE Geformter Nasensteg zur Anpassung an verschiedene Gesichtsformen und größen

FR Pont de nez profilé pour s'adapter à différentes formes et tailles de visage

ES Puente nasal moldeado para adaptarse a una gran variedad de formas y tamaños de cara

DUAL DENSITY NOSE BRIDGE

EN Watertight design, for superior comfort

IT Ponticello nasale a doppia densità per una tenuta stagna e un comfort superiore

DE Wasserdichter Nasensteg mit doppelter Dichte für überragenden Komfort

FR Pont de nez étanche à double densité, pour un confort supérieur

ES Diseño estanco del puente nasal de doble densidad, para un confort superior

LIQUID SKIN

EN Ultra-light flexible comfort but durable for no leaks. Fitting like a second skin, you'll feel like you are not wearing goggles.

IT Comodità ultraleggera e flessibile e resistente per non avere infiltrazioni. Si adatta come una seconda pelle, ti sentirai come se non stessi indossando gli occhiali.

DE Ultraleichter, flexibler Komfort, aber langlebig für keine Lecks. Passend wie eine zweite Haut, werden Sie das Gefühl, als ob Sie nicht tragen Brille.

FR Peau liquide - Confort flexible ultra-léger mais durable sans fuite. S'adaptant comme une seconde peau, vous aurez l'impression de ne pas porter de lunettes.

ES Comodidad flexible y ultraligera pero duradera para evitar fugas. Se ajusta como una segunda piel: no notarás que llevas unas gafas puestas.

SOFT SEAL™

EN Unique thermoplastic rubber giving a superb customised fit whilst retaining softness and watertight seal.

IT Esclusiva mescola in gomma termoplastica che offre una superba vestibilità personalizzata pur mantenendo morbidezza e tenuta stagna.

DE Einzigartiger thermoplastischer Gummi, der eine hervorragende individuelle Passform bietet und gleichzeitig weich und wasserdicht ist.

FR Caoutchouc thermoplastique unique offrant un superbe ajustement personnalisé tout en conservant la douceur et l'étanchéité.

ES Es una goma termoplástica única que proporciona un perfecto ajuste personalizado y mantiene la suavidad y el sellado hermético.

FOUR POINT FLEX

EN Ultimate frame technology, for enhanced frame flexibility offering a super comfortable fit for all faces.

IT La nostra miglior tecnologia per la montatura: flessibilità massimizzata, vestibilità super confortevole, adatta a tutte le forme del viso.

DE Ultimative Rahmentechnologie, für verbesserte Rahmenflexibilität, die einen super bequemen Sitz für alle Gesichter bietet.

FR Technologie de monture ultime, pour une flexibilité améliorée, offrant un ajustement super confortable pour tous les visages.

ES Esta tecnología punta proporciona una mayor flexibilidad a la montura para que se ajuste cómodamente a cualquier rostro.

TWO POINT FLEX

EN Each side features a V-groove flex point for enhanced flexibility.

IT Ogni estremità è caratterizzata da una scanalatura a V per incrementare la flessibilità.

DE Jede Seite ist mit einer V-förmigen Flexkerbe versehen, um die Flexibilität zu erhöhen.

FR Chaque côté dispose d'un point de flexion à rainure en V pour une flexibilité accrue.

ES Cada lado cuenta con un punto flexible en forma de V para una mayor flexibilidad.

WIRO FRAME

EN Unique bio-tech™ frame technology, a durable long lasting frame with soft silicone gaskets, offering a super comfortable fit.

IT Esclusiva tecnologia della montatura bio-tech™, una struttura durevole di lunga durata con guarnizioni in silicone morbido, che offre una vestibilità super confortevole.

DE Einzigartige bio-tech™ Rahmentechnologie, ein strapazierfähiger, langlebiger Rahmen mit weichen Silikondichtungen, die einen superbequemen Sitz bieten.

FR Cadre Wiro - Technologie de monture bio-tech ™ unique, une monture durable et durable avec des joints en silicone souple, offrant un ajustement super confortable.

ES Exclusiva tecnología Bio-Tech™: una montura duradera con juntas de silicona blandas que ofrecen un ajuste muy cómodo.

HCB TECHNOLOGY

EN Patented HCB (Honeycomb) technology hexagonal structure reinforces the seal against pressure, whilst maintaining elasticity and softness for a lightweight, secure fit.

IT Struttura esagonale della guarnizione, con tecnologia brevettata HCB (Honeycomb) che rinforza la tenuta mantenendo elasticità e morbidezza, per una vestibilità leggera e sicura.

DE Patentierte HCB (Honeycomb)-Technologie Hexagonstruktur verstärkt die Dichtung gegen Druck, während Elastizität und Weichheit für einen leichten, sicheren Sitz erhalten bleiben.

FR La structure hexagonale brevetée de la technologie HCB (Honeycomb) renforce l'étanchéité contre la pression, tout en maintenant l'élasticité et la douceur pour un ajustement léger et sûr.

ES La estructura hexagonal de la tecnología patentada HCB (Honeycomb) refuerza el sellado contra la presión y, a la vez, mantiene la elasticidad y la suavidad para un ajuste ligero y seguro.

AIR CUSHION

EN Air filled gaskets, made from high quality silicone, provide a 'cushioned' seal which gives an 'almost not there' fit with significantly reduced marking around the eye.

IT La guarnizione con cuscinetto d'aria che fornisce una vestibilità ultra leggera, caratterizzata da una aderenza "quasi impercepibile", riduce visibilmente i segni intorno agli occhi,

DE Luftgefüllte Dichtungen aus hochwertigem Silikon sorgen für eine "gepolsterte" Dichtung, die einen ""fast nicht da"" Sitz mit deutlich reduzierter Markierung um das Auge herum bietet.

FR Coussin d'air - Les joints remplis d'air, fabriqués à partir de silicone de haute qualité, fournissent un joint «rembourré» qui donne un ajustement «presque pas là» avec un marquage considérablement réduit autour de l'œil.

ES Las juntas llenas de aire, fabricadas con silicona de alta calidad, proporcionan un sellado «acolchado» que se ajusta casi como si no llevaras nada y dejan mucho menos marca alrededor de los ojos.

STRAPS

SPLIT STRAP

EN Our split yoke straps, made using high quality silicone, are strong, durable and comfortable, featured on many of our goggles.

IT I nostri cinturini a fenditura centrale, sono realizzati in silicone di alta qualità: sono forti, durevoli e comodi, presenti su molti dei nostri occhialini.

DE Geteilter Riemen - Unsere geteilten Kopfbänder aus hochwertigem Silikon sind stabil, langlebig und komfortabel und werden bei vielen unserer Brillen eingesetzt.

FR Sangle Fendue - Nos sangles à empiècement fendu, fabriquées à partir de silicone de haute qualité, sont solides, durables et confortables, présentes sur bon nombre de nos lunettes.

ES Correa dividida - Nuestras correas de sujeción divididas, hechas con silicona de alta calidad, son fuertes, duraderas y cómodas y están presentes en muchas de nuestras gafas.

DOUBLE STRAP

EN Our double band headstraps also feature an easy adjust system, made using high quality silicone for comfort and durability.

IT I nostri cinturini doppi a testiera hanno un sistema di regolazione facile, realizzato con silicone di alta qualità per dare una sensazione di comfort e offrire durabilità.

DE Doppelter Riemen - Unsere Doppelband-Kopfbänder verfügen außerdem über ein einfaches Verstellsystem, das aus hochwertigem Silikon für Komfort und Haltbarkeit hergestellt wird.

FR Double Sangle - Nos serre-tête à double bande sont également dotés d'un système de réglage facile, fabriqué à partir de silicone de haute qualité pour plus de confort et de durabilité.

ES Correa doble - Nuestras correas dobles para la cabeza también cuentan con un sistema de ajuste sencillo y están hechas con silicona de alta calidad para una mayor comodidad y durabilidad.

QUICK ADJUST

EN Our quick adjust system is fast and secure, the easiest way to get just the right fit.

IT Il nostro sistema di regolazione rapida è veloce e sicuro, il modo più semplice per ottenere la giusta misura.

DE Schnelljustierung - Unser Schnellverstellsystem ist schnell und sicher, der einfachste Weg, um genau die richtige Passform zu erhalten.

FR Réglage Rapide - Notre système de réglage rapide est rapide et sécurisé, le moyen le plus simple d'obtenir le bon ajustement.

ES Ajuste Rápido - Nuestro sistema de ajuste rápido es rápido y seguro: el mejor modo de conseguir el ajuste perfecto.

SLIDE ADJUST

EN Side slide adjust clip featured on entry level goggles.

IT La fibbia a scorrimento laterale è presente sugli occhiali basici per offrire una regolazione personalizzata scorrevole.

DE Verschluss Einstellung - Seitlich verschiebbarer Verstellclip an der Einsteigerbrille.

FR Réglage de la glissière - Clip de réglage de la glissière latérale présenté sur les lunettes d'entrée de gamme.

ES Ajuste mediante deslizamiento - Clip de ajuste lateral de deslizamiento incorporado en las gafas de nivel inicial.

EASY ADJUST

EN Side Central headstrap button, for quick and easy adjustment.

IT Pulsante posteriore centrale, per una regolazione semplice e veloce del cinturino.

DE Einfach einzustellen - Zentraler Kopfband-Verschluss, für eine schnelle und einfache Einstellung.

FR Réglage facile - Bouton central de la bandoulière, pour un réglage rapide et facile.

ES Ajuste sencillo - Botón central en la correa de la cabeza para un ajuste rápido y sencillo.

PULLEY ADJUST

EN Pulley system exclusive to our Predator range, for a secure and even fit.

IT Sistema di fibbie a rullo esclusivo per la nostra gamma Predator, per una vestibilità sicura e uniforme.

DE Réglage de la poulie - Système de poulie exclusif à notre gamme Predator, pour un ajustement sûr et uniforme.

FR Flaschenzug Einstellung - Exklusives Flaschenzugsystem der Predator-Serie für einen sicheren und gleichmäßigen Sitz.

ES Ajuste con hebillas - Sistema de hebillas exclusivo de nuestra gama Predator para un ajuste seguro y estable.

CERTIFICATIONS

EN This indicates the style has been sanctioned for use at World Aquatics approved events.

IT Questo simbolo indica che il modello è stato certificato per l'utilizzo in eventi approvati da World Aquatics.

DE Dies zeigt an, dass dieser Artikel für die Verwendung bei von der World Aquatics genehmigten Veranstaltungen sanktioniert wurde.

FR Cela indique que le style a été approuvé pour une utilisation lors d'événements approuvés par le World Aquatics

ES Esto indica que este estilo se autoriza en los eventos aprobados por World Aquatics.

Predator Flex Titanium Reactor

Lens: Cellulose Acetate | Gasket: Silicone | Strap: Silicone

BKGORTIR	Black/Gold/Titanium Reactor	Regular Profile Fit
BKGORTIS		Smaller Profile Fit

Inner pack quantity: 4

Get ready to experience our Best Fit Yet, with our new Predator Flex Titanium Reactor swimming goggles. The Predator Flex range offers unrivalled comfort and fit, thanks to the use of 4 unique flexpoints for enhanced frame flexibility and a customised fit. Now available in two different sizes (Regular Profile Fit, and Smaller Profile Fit), the Predator Flex Titanium Reactor goggles now fit more faces than ever before. Our Advanced Ultra-Fit™ gasket provides exceptional comfort, using 10% softer silicone to give a lighter feel. The Titanium Reactor Photochromatic lenses react to the sun's rays, allowing for a darker and more protective tint in brighter conditions, and complete clarity in darker settings. They make the perfect partner for long open water swims with changing light conditions, or a regular training session at your local pool. There's no need to worry about fogging either, with anti-fog technology for exceptional moisture control and clarity. The only question is; which size will you choose?

461107

Predator Flex Reactor

Lens: Cellulose Acetate | Gasket: Silicone | Strap: Silicone

GYORRSMR	Grey/Orange/Reactor Smoke	Regular Profile Fit
GYORRSMS		Smaller Profile Fit

Inner pack quantity: 4

Get ready to experience our Best Fit Yet, with our Predator Flex Reactor swimming goggles. The lenses will adjust according to the light levels in which you are swimming. Predator Flex is the ongoing realization of our ambition to make the best and most comfortable swim goggles the world has ever seen. From lenses to fit, every pair is packaged with the learning and technological advances that have come from 30 years of dedicated development and desire to improve. These are not our best goggles yet. They are the best goggles. This is not our best fit yet. This is the best fit yet. The Predator Flex range offers unrivalled comfort and fit, thanks to the use of F4 unique flexpoints for enhanced frame flexibility and a customised fit. As no two faces are the same, we have introduced two different sizes; Regular Profile Fit, and Smaller Profile Fit. Coupled with their new Advanced Ultra-Fit gasket, for exceptional comfort, our Predator goggles now fit more faces than ever before.

Get ready to experience our Best Fit Yet, with our new Predator Titanium Reactor swimming goggles. The Predator range offers unrivalled comfort and fit. Now available in two different sizes (Regular Profile Fit, and Smaller Profile Fit), the Predator Titanium Reactor goggles now fit more faces than ever before. Our Advanced Ultra-Fit™ gasket provides exceptional comfort, using 10% softer silicone to give a lighter feel. The Titanium Reactor Photochromatic lenses react to the sun's rays, allowing for a darker and more protective tint in brighter conditions, and complete clarity in darker settings. They make the perfect partner for long open water swims with changing light conditions, or a regular training session at your local pool. There's no need to worry about fogging either, with anti-fog technology for exceptional moisture control and clarity. The only question is; which size will you choose?

Inner pack quantity: 12

Let nothing get in the way of your childs swim with our new Bondi Junior goggles. Not only do these colourful goggles look great gliding through the water, but your child is bound to feel great with these beauties on. The split yoke straps provide fantastic comfort, and the slide adjust clip makes fitting these goggles a walk in the park. Featuring UV protection and anti-fog for a safe and stress-free swim. What's not to love?

Now available with a frame and strap made from recycled silicone, sourced from the recovery of industrial waste from previous mol-ding processes. This choice, aimed to reducing material waste and giving new life to what would otherwise accumulate as refuse, helps mitigate the environmental burden and represents a step toward safeguarding the environment and fostering a more conscious and sustainable future.

TRAINING AIDS

465202 EVA Kick Board

BK M Black M

Inner pack quantity: 1

Zoggs EVA Kickboard is a durable kickboard designed for improved efficiency in the water with hand cut-outs for a secure hold. Designed for training to help focus on kick technique and help reduce muscle fatigue.

OR S Orange S

NEW COLOUR

TQ S Turquoise S

465266 Mini Kickboard

OR Orange

NEW COLOUR

TQ Turquoise

Inner pack quantity: 1

Our Mini Kickboard is designed to develop competent swimmers, a great tool for improving kick technique and building strength. The smaller design is ideal for fitting into your kit bag. This kickboard is ideal for children and adults alike, offering slightly reduced buoyancy to adults.

ZOGGS
ZOGGS

465206 Pull Buoy

BKOR Black Orange

Inner pack quantity: 1

Zoggs Pull Buoy is designed to isolate the upper body, improving upper body strength and stroke technique. The ergonomic construction sits comfortably between your thighs to immobilise your legs but also be held between the ankles which will make for a more challenging workout for your torso and upper body as you try to keep your body straight whilst swimming. The Pull Buoy is best used with hand paddles to further focus on improving upper body strength and stroke technique.
Voted Best on Test by 220 Triathlon Magazine in August 2015.

NEW COLOUR

BKTQ Black Turquoise

465212 Kick Buoy

GY Grey

Inner pack quantity: 1

Discover the ultimate swim training aid with the Zoggs Kickbuoy - a two-in-one combined kickboard and pull buoy, perfect for saving space in your kit bag!
As a kickboard it can be used to focus on kick technique and as a pull buoy can be used to focus on arm stroke, a great training aid for working different muscle groups.

465222
NEW

Pull Buoy Max

NEW FOR 2026

BKTQ Black Turquoise

Inner pack quantity: 1

The perfect buoyancy tool to improve body alignment, with an ergonomic design for hydro-dynamicity together with the maximum stability. Contouring to the swimmer's inner thigh for ultimate comfort. Super lightweight with increased volume compared to a standard pull buoy, helps to maintain the ideal balance during a swim workout. Use in conjunction with Zoggs Centre Line Snorkel, Hand Paddles, and other training equipment to improve swim technique.

465265 Matrix Hand Paddles

BKGYL Black Grey Large

Inner pack quantity: 3

Zoggs Matrix Hand Paddles are designed to improve your stroke technique as they force your hand to stay straight as you pull through the water. They are ergonomically contoured in design for optimum performance and feature a scooped front-end to catch the phase of your stroke with added holes to increase your feel of the water. As well as improving stroke performance, hand paddles can help to build strength in arms and shoulders. The soft TPR (Thermoplastic Rubber) outer edge allows for flexibility in the finger tips for added comfort. If you are considering training with hand paddles for the first time, you should always begin training with a smaller size (i.e. medium) regardless of the size of your hand until you become used to the added drag.

ORGYM Orange Gery Medium

465221 Flat Hand Paddles

TQBK Tourquoise/Black

Inner pack quantity: 3

- Flat swim paddles
- Optimally increases swimming effort
- Polypropilene made-chlorine resistant- long lasting
- Adjustable elastomertubular straps

SM Small/Medium
ML Medium/Large
LXL Large/Extra Large

465287 Centre Line Snorkel

BKOR Black Orange

Inner pack quantity: 4

Zoggs Centre Line Snorkel is a handy swim training aid which allows you to focus on perfecting your stroke without the need to turn your head to breathe. Using a swim snorkel enables you to concentrate on your body position in the water as you don't have to turn your head to breathe. You will be able to align your head and spine and hold the lower part of your body higher in the water. By not having to look away to breathe, you are able to watch your hand position as it enters the water and correct if necessary. The adjustable head bracket is designed to not interfere with your goggles, providing a secure fit and reinforced split yoke strap for comfort. The snorkel comes with a nose clip and angled Vylux mouthpiece for superb comfort and encouraging a focus on stroke rather than turning for the next breath.

Zoggs swimming fins just got an eco-upgrade! New Eco Short Blade Fins are made with 30% sustainable recycled silicone - the first ever swim fin made with recycled materials! They also come packaged in a reusable mesh carry bag. These short blade fins are specifically engineered to for optimum propulsion, performance and comfort. The heel pocket is soft for a customised fit and for ease to put on, whereas the silicone blade is rigid and durable. This allows for a balanced and natural rhythmic kick and reduces calf muscle fatigue so you are less likely to experience cramping post swim. This fin also features grip nodules underneath to prevent slipping. The short blade means that even in busier swimming pools, you can focus on your kick technique without catching the blades on the environment around you.

EN What are the Stages of Swim Development?

- 'One stop' package to help build a child's water confidence
- Combined to help kids enjoy the freedom of swimming
- Supported throughout all marketing comms including on pack colour referencing
- Safety compliance focused on parental communications & product credibility

Simple labelling hierarchy aligning swimming skill levels of the intended user. This has been broken down into three key stages:
STAGE 1 START TO SWIM: Baby in a trainer seat & soaker toy aimed at the younger swimmer
STAGE 2 LEARN TO SWIM: The child is slightly older, with their swim mask and water wings vest
STAGE 3 CONFIDENT SWIMMERS: The child is older still, with higher skill level wearing flippers, snorkel & carrying a dive stick

IT Come funziona il sistema di apprendimento del nuoto in tre fasi?

- Un pacchetto completo che aiuta il bambino a costruire gradualmente la propria sicurezza in acqua
- Ciascuna fase è organizzata per aiutare i bambini a godere della libertà del nuoto in base alle loro capacità
- Ogni fase è supportata dai nostri contenuti marketing ed utilizza come riferimento gli stessi colori presenti sulle confezioni
- La conformità alle norme di sicurezza è rafforzata da suggerimenti per i genitori e da prodotti efficaci

L'etichettatura è intuitiva ed individua tre livelli di abilità dell'utilizzatore:
LIVELLO 1 - INIZIARE A NUOTARE: Bambino piccolo che utilizza un salvagente con seduta e giocattoli che lo introducono al contatto con l'acqua.
LIVELLO 2 - IMPARARE A NUOTARE: Bambino che comincia a nuotare indossando gli occhialini ed un dispositivo d'aiuto al galleggiamento
LIVELLO 3 - CONSOLIDARE LE ABILITA': Bambino con livelli di abilità ed autonomia superiori, che utilizza attrezzature anche sott'acqua.

DE Was sind die Stadien der Schwimmentwicklung?

- Komplett-Paket, um das Vertrauen eines Kindes in das Wasser zu stärken
- Kombiniert, damit Kinder die Freiheit des Schwimmens genießen können
- Unterstützung in der gesamten Marketing-Kommunikation, einschließlich Farbcodierung auf der Verpackung
- Sicherheitskonformität mit Fokus auf elterliche Kommunikation & Produktglaubwürdigkeit

Eine einfache Beschriftungshierarchie, die sich an den Schwimmfähigkeiten des Kindes orientiert. Diese wurde in drei Stufen unterteilt:
STUFE 1 SCHWIMMANFÄNGER: Baby im Schwimmsitz & Wasserspielzeug zur Wassergewöhnung
STUFE 2 FORTGESCHRITTENE SCHWIMMANFÄNGER: Das Kind ist etwas älter, mit Schwimmbrille und Auftriebshilfen
STUFE 3 SICHERE SCHWIMMER: Das Kind ist älter, hat ein höheres Fähigkeitsniveau und trägt mitunter schon Flossen & cicherer Umgag mit Tauchspielzeug

FR Quelles sont les étapes du développement en natation?

- Un package 'première étape' pour aider à renforcer la confiance en eau de l'enfant
- Combiné pour aider les enfants à profiter de la liberté de nager
- Prise en charge dans toutes les communications marketing, y compris la référence des couleurs de l'emballage
- Conformité en matière de sécurité axée sur la communication parentale et la crédibilité des produits

Simple hiérarchie d'étiquetage alignant les niveaux de compétence en natation de l'utilisateur visé. Ceci a été divisé en trois étapes clés:
ÉTAPE 1 COMMENCER À NAGER: Bébé dans un siège d'entraîneur et jouet de trempage destiné au plus jeune nageur
ÉTAPE 2 APPRENDRE À NAGER: L'enfant est un peu plus âgé, avec son masque de natation et ses brassards
ÉTAPE 3 NAGEURS EN CONFIANCE: L'enfant est encore plus âgé, avec un niveau de compétence plus élevé portant des palmes, un tuba & portant un bâton de plongée

ES ¿Cuáles son las etapas iniciales de la natación?

- Paquete todo en uno para ayudar a desarrollar la confianza del niño en el agua
- Esta combinación ayuda a los niños a disfrutar de la libertad de nadar.
- Compatible con todas las comunicaciones de marketing, incluida la referencia del color del paquete.
- Aporta seguridad y se centra en las comunicaciones con los padres y la credibilidad del producto.

Jerarquía de clasificación sencilla que se ajusta a los niveles de habilidad de natación del destinatario. Se desglosa en tres etapas clave:
ETAPA 1 - EMPEZAR A NADAR: Bebé en asiento de aprendizaje y juguete absorbente para los nadadores más jóvenes
ETAPA 2 - APRENDER A NADAR: Un niño un poco más mayor que utiliza máscara de natación y manguitos
ETAPA 3 - NADADORES SEGUROS: Un niño más mayor, con un nivel superior de natación, que usa aletas, tubo y un palo de buceo

Inner pack quantity: 1

The Comfy Swimsure™ Nappy gives additional peace of mind to enjoy swimming with your baby without the worry of accidents. Made in soft and stretchable neoprene, it is easy for them to wear and contoured to fit your baby's body. It stays in place during the time in the water, offering maximum comfort and protection against leaks when in the pool.
The elastane cuffs provide a secure fit, keeping the content of your baby's nappy inside until it is removed and cleaned.
It can also be used as trainer pants as your baby progresses with their toilet training.

Inner lining: 100% Polyester

NAST Nautical Stripes ONE SIZE 3-24 months 4-17 kgs

RNMG Rainbow Magenta ONE SIZE 3-24 months 4-17 kgs

Inner pack quantity: 1

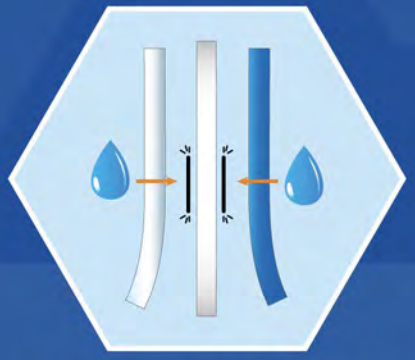

The Adjustable Swim Nappy, for children aged 3-24 months, can be worn alone or can be worn with a disposable nappy underneath for extra protection. With a double row of adjustable snaps, it provides a comfortable fit as your little one grows. It has a 3-layer construction: (A) The inner soft lining to absorb accidental leaks from the disposable nappy. (B) The waterproof middle membrane protects in both directions, retaining accidental leaks while keeping the disposable nappy "safe" from water – allowing for maximum absorbency on the inside. (C) The super softer outer fabric.

Fleece-lined Jumpsuit

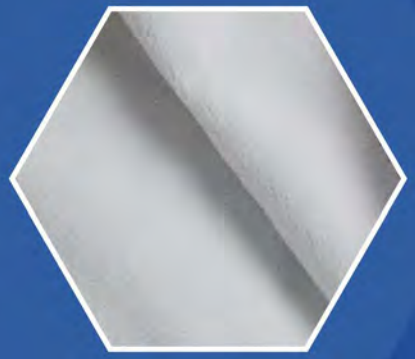

Waterproof middle layer

Retains accidental leaks while limiting water inflow.

Rear zip

Zip fastening for easy opening and closing.

Fleece lining

Maintains body temperature longer.

Zoggs anti-slip socks are ideal for preventing slips on wet and dry surfaces. Easy to put on and take off, our anti-slip socks are lightweight and can be worn to enter the water. The skin is protected at all times against abrasions, fungal infections and warts. The padding on the insole gives a barefoot feel with a light cushioned effect. Different to neoprene socks, these are soft and breathable making them suitable for use in dry and warm environments, such as sandy and pebble beaches.

STAGE 1

Zoggy Trainer Seat

100% Heavy Duty Vylux™

0-12 months / 0-11 kgs

Inner pack quantity: 4

Our Zoggy Trainer Seat is perfect way to get your little one building confidence in water. This float is designed to have your little one sitting stable and upright so that they're free to kick their legs and arms as they get used to the feel of the water. The Trainer Seat also features Easy Inflate™ valves making it quicker and easier to be both inflated and deflated. We've even thrown in 3 durable air chambers for added safety so they can enjoy their first moments in the water and you can breathe a bit easier.

See below

STAGE 1

Trainer Seat

100% Heavy Duty Vylux™

465384 0-12 months / 0-11 kgs **465381** 12-24 months / 11-15 kgs

Inner pack quantity: 4

The perfect way to get your little ones into the water. Our Trainer Seats are designed for children who are able to sit confidently, and allows them to float freely and get used to the feel of the water. Our Trainer Seat also features Easy Inflate™ valves making it quicker and easier to be both inflated and deflated. There are 3 durable air chambers for added safety, so that if the product does become punctured the child will still be safe. The bright orange and green design is fantastic for clear visibility in the water as they become more independent in the water. Ideal for newborn babies up to 24 months or up to 15 kgs.

Inner pack quantity: 1 free standing display, 16 pieces

Zoggs Zoodle Swimming is a non-toxic, lightweight, and durable foam swimming aid designed for fun and learning in the water. The long, 150cm flexible foam tube can easily bend into any shape, making it perfect for activities such as aqua aerobics to help strengthen muscles.

465210

STAGE 3

Zoggy Mini Kickboard

Eva foam

YL Yellow

Inner pack quantity: 2

Swim with Zoggy and his friends with this Mini Kickboard. Designed for training, built to improve kick technique and perfect for children as they learn to swim and work on different techniques. Suitable for children aged 3-12 years. The kickboard can be used as part of a game as well as building skills. To make a game out of the kickboard you can place Zoggy Soakers in the water and encourage children to swim over to them and swim back with them balancing on the kickboard.

465358

STAGE 3

Dive Ball (2pcs per set)

Outer : 28% Polyester + 72% Chloroprene foam
Inner: Riversand

SINKING

Inner pack quantity: 12

Our Zoggs Dive Balls balls are great for building confidence in the water, dive to retrieve them from the bottom of the pool. This is an ideal game for children and adults to play together - you can race to see who can grab them first.

465377

STAGE 3

Splash Ball (3pcs per set)

Outer: 28% Polyester + 72% Chloroprene foam
Inner: 100% EPE

BUOYANT

Inner pack quantity: 12

Our Zoggs Splash Balls are great for hours of fun in and around the pool, a fantastic way to build confidence in the water. Kids can race their friends to retrieve them first. For little ones about to visit the pool for the first time, introduce the splash balls to bath time so that when they go swimming they have familiar toys around them.

465351

STAGE 3

Aqua Ball

Outer : 28% Polyester + 72% Chloroprene foam
Inner: 70% SBR + 30% Butyl Bladder

BUOYANT

Inner pack quantity: 6

Our Zoggs neoprene Aqua Ball is great for hours of fun for the whole family in and around the pool. The Aqua Ball is an ideal way to build water confidence by incorporating play into learning to swim.

OUR SUSTAINABILTY MISSION

WE ARE GREEN AND BECOMING GREENER!

Pollution caused by plastic, micro-beads and ghost fishing nets are harming whales, sea turtles, dolphins and other marine life.

At Zoggs we are taking action, we're on a mission to reduce our impact as a business on the environment.

From greener packaging and reduction of single use plastics, to recycled fabrics made from plastic bottles, and supporting various environmental causes, we believe in doing everything we can to preserve our planet for the future.

Our ambition is to become a greener more eco conscious brand as part of the war on plastic.

SWIMWEAR SUPPORT LEVELS

Everybody can be a swimmer and every body can be a swimmer's body. That's why we've designed swimwear that gives four levels of support.

So you can choose the swimsuit that you feel most confident in.

Check the swimsuit to find the support level.

Sandon Scoopback
Support Level 4

NEUTRAL SUPPORT

Neutral support typically found in our sports training styles such as front lining.

LOW SUPPORT

Light support with details such as shelf bras and adjustable straps to help fit the suit to your shape.

MEDIUM SUPPORT

Subtle contour features giving you confidence and comfort such as soft foam cups and adjustable straps.

HIGH SUPPORT

Our most supportive suits with shaping and core support, such as soft foam cups, tummy control and multi-way or adjustable straps.

WOMENS SWIMWEAR

MENS SWIMWEAR

OPEN WATER SWIMWEAR

ENGINEERED TO RETAIN BODY HEAT

SILVER LINING TECHNOLOGY HOLDS BODY HEAT FOR 60% LONGER THAN REGULAR SWIMWEAR

ZOGGS®

ZOGGS LATEST INNOVATIVE COLLECTION

Zoggs vibrant line of sustainable women's heat retention swimwear has been developed to enhance the outdoor swimming experience through science and colour. For wild dippers to experienced endurance open water swimmers, this bold range is designed with performance in mind and features Zoggs latest fabric innovation - Silver Lining.

WHAT'S DIFFERENT ABOUT THIS SWIMWEAR?

Zoggs Silver Lining not only gives a fantastic fit and feel, but it also offers an extra benefit - heat preservation. Lab tests revealed that Zoggs unique Silver Lining reflects body heat, retaining warmth for 60% longer than normal swimwear. These open water swimsuits are fully lined with this patent pending silver technology. The compressive outer fabric is made from Ecofeel™, Zoggs latest sustainable fabric made with recycled plastic waste.

RANGE OVERVIEW

- Bright, bold prints help open water visibility
- Ecofeel Material - Made with 79% Micro Polyamide (recycled plastic waste - Econyl) and 21% Elastane
- Fully lined, front and back
- Unique patent pending Silver Lining technology retains body heat for 60% longer than normal swimwear
- Chlorine resistant
- Compressive yet super comfortable and soft to the touch

FABRIC GUIDE

GUIDA AL TESSUTO
MATERIALÜBERSICHT
GUIDE DES TISSUS / GUÍA DE TEJIDOS

EcoFit™

EN

- An eco-friendly technical fabric made with regenerated Econyl® nylon yarn - The Econyl® Regeneration System starts with rescuing waste otherwise polluting the Earth, like fishing nets, fabric scraps, carpet flooring and industrial plastic all over the world
- 2-way stretch, for muscle compression and comfort
- The fabric is versatile, hyper-resistant, sleek, elegant, stretchy, soft, and breathable
- Thanks to its innovative construction, it boasts more than double the resistance to chlorine attacks, sun creams, and oils compared to competitor fabrics
- Made of 78% ECONYL® Recycled Polyamide which can be recycled, recreation, and remoulded. 22% Elastane
- Weight - 190gms

IT

- Tessuto tecnico ecologico realizzato con filato di nylon Econyl® rigenerato - Il sistema di rigenerazione Econyl® inizia con il recupero di rifiuti, come reti da pesca, scarti di tessuto, pavimenti in moquette e plastica industriale in tutto il mondo.
- Bi-strech, ideale per la compressione muscolare e il comfort.
- Il tessuto è versatile, iper-resistente, elegante, elastico, morbido e traspirante.
- Grazie alla sua struttura innovativa, vanta una resistenza più longeva agli attacchi del cloro, alle creme solari e agli oli rispetto ai tessuti della concorrenza.
- Realizzato con il 78% di poliammide riciclata ECONYL® che può essere riciclata, ricreata e rimodellata. 22% elastan
- Peso - 190 g

DE

- Ein umweltfreundliches technisches Gewebe aus regeneriertem Econyl®-Nylongarn - Das Regenerationsverfahren von Econyl® beginnt mit der Wiederverwertung von Abfällen, die sonst die Umwelt verschmutzen, wie z. B. Fischernetze, Stoffreste, Teppichböden und Industrieplastik auf der ganzen Welt
- 2-Wege-Stretch, für Muskelkompression und Tragekomfort
- Der Stoff ist vielseitig, hyperresistent, geschmeidig, elegant, dehnbar, weich und atmungsaktiv
- Dank seiner innovativen Konstruktion ist es mehr als doppelt so widerstandsfähig gegen chlorhaltige Substanzen, Sonnencremes und Öle wie die Stoffe anderer Hersteller
- Hergestellt aus 78% ECONYL® Recyceltem Polyamid, das recycelt, wiederverwendet und neu geformt werden kann. 22% Elastan
- Gewicht - 190gr

FR

- Un tissu technique respectueux de l'environnement fabriqué avec du fil de nylon Econyl® régénéré - Le système de régénération Econyl® commence par récupérer les déchets qui autrement pollueraient la Terre, comme les filets de pêche, les chutes de tissus, les moquettes et le plastique industriel partout dans le monde
- Extensible dans les deux sens, pour la compression musculaire et le confort
- Le tissu est polyvalent, hyper résistant, épuré, élégant, extensible, doux et respirant
- Grâce à sa construction innovante, il offre une résistance plus du double aux attaques de chlore, aux crèmes solaires et aux huiles par rapport aux tissus concurrents
- Fabriqué à 78 % en polyamide recyclé ECONYL® qui peut être recyclé, récréé et remodelé. 22% élasthanne
- Poids - 190 g

ES

- Un tejido técnico ecológico fabricado con hilo de nailon Econyl® regenerado: el sistema de regeneración Econyl® comienza con el rescate de desechos que de otro modo contaminarían la Tierra,
como redes de pesca, restos de tela, alfombras y plástico industrial en todo el mundo
- Estiramiento bidireccional, para compresión muscular y comodidad
- El tejido es versátil, hiperresistente, liso, elegante, elástico, suave y transpirable
- Gracias a su construcción innovadora, cuenta con más del doble de resistencia a los ataques de cloro, cremas solares y aceites en comparación con los tejidos de la competencia
- Hecho de 78% de poliamida reciclada ECONYL® que puede reciclarse, recrearse y remodelarse. 22% Elastano
- Peso: 190g

Ecolast+™

EN

- Sustainable eco-fabric made with RePETable® yarn - High quality recycled polyester yarn made from 100% post consumer recycled bottles (PET Bottles)
- 100% chlorine proof* for ultimate lasting performance
- Optimal stretch, fit and shape retention
- 4 times greater fabric compression than traditional generic swimwear fabrics
- Exceptional colour fastness and quick drying
- 51% RePETable® Recycled Polyester and 49% Polyester PBT
- 5 X 500ml plastic bottles are recycled per 1 x womens swimsuit (13 x 500ml bottles are recycled per metre)
- Weight - 170gms

IT

- Tessuto eco sostenibile realizzato con filato RePETable® - Filato di poliestere riciclato di alta qualità realizzato con il 100% di bottiglie riciclate post consumo (bottiglie in PET)
- 100% a prova di cloro* per prestazioni durature
- Allungamento, vestibilità e mantenimento della forma ottimali
- Compressione del tessuto 4 volte maggiore rispetto ai tradizionali tessuti generici per costumi da bagno
- Eccezionale solidità dei colori e asciugatura rapida
- 51% poliestere riciclato RePETable® e 49% poliestere PBT
- 5 bottiglie di plastica da 500 ml vengono riciclate per 1 costume da bagno da donna (13 bottiglie da 500 ml vengono riciclate per metro)
- Peso - 170gms

DE

- Nachhaltiger Öko-Stoff aus RePETable®-Garn - Hochwertiges recyceltes Polyestergarn aus 100 % recycelten Flaschen (PET-Flaschen)
- 100% chlorresistent* für ultimative, dauerhafte Leistung
- Optimale Dehnbarkeit, Passform und Formbeständigkeit
- 4 Mal stärkere Stoffkompression als bei herkömmlicher Bademode
- Außergewöhnliche Farbechtheit und schnelle Trocknung
- 51% RePETable® Recyceltes Polyester und 49% Polyester PBT
- 5 x 500ml Plastikflaschen werden pro 1 x Damenbadeanzug recycelt (13 x 500ml Flaschen werden pro Meter recycelt)
- Gewicht - 170gms

FR

- Éco-tissu durable fabriqué avec du fil RePETable® - Fil de polyester recyclé de haute qualité fabriqué à partir de 100 % de bouteilles recyclées après consommation (bouteilles PET)
- 100 % résistant au chlore* pour une performance durable ultime
- Souplesse, ajustement et maintien selon vos besoins
- Compression du tissu 4 fois supérieure à celle des tissus de maillots de bain génériques traditionnels
- Solidité exceptionnelle des couleurs et séchage rapide
- 51 % de polyester recyclé RePETable® et 49 % de polyester PBT
- 5 bouteilles en plastique de 500 ml sont recyclées pour 1 maillot de bain pour femme (13 bouteilles de 500 ml sont recyclées par mètre)
- Poids : 170gms

ES

- Tejido ecológico sostenible fabricado con hilo RePETable®: hilo de poliéster reciclado de alta calidad fabricado 100 % a partir de botellas recicladas posconsumo (botellas PET)
- 100 % a prueba de cloro* para un rendimiento máximo y duradero
- Retención óptima de la forma, el ajuste y la elasticidad
- Compresión de tela 4 veces mayor que las telas genéricas tradicionales para trajes de baño
- Excepcional solidez del color y secado rápido
- 51 % poliéster reciclado RePETable® y 49 % poliéster PBT
- Se reciclan 5 botellas de plástico de 500 ml por 1 traje de baño de mujer (13 botellas de 500 ml se reciclan por metro)
- Peso: 170gms

Ecolast™

EN
- Sustainable techno-fabric made with recycled post consumer plastic bottles
- Chlorine resistant fabrication, outperforming generic swimwear fabrics
- 4 way stretch, for superior shape retention and fit
- Made using microfibre yarn, for a soft touch feel and is quick drying
- 82% Recycled Polyester and 18% Elastane
- 7 X 500ml plastic bottles are recycled per 1 x womens swimsuit (18 x 500ml bottles are recycled per metre)
- Weight - 190gms

IT
- Tessuto tecnico sostenibile realizzato con bottiglie di plastica riciclate post consumo
- Resistenza al cloro, oltre i tessuti generici per costumi da bagno
- Elastico in 4 direzioni, per un superiore mantenimento della forma e maggiore vestibilità

EN

Hi Front
Our Hi Front style offers more coverage with exposed back and clip fastening.

Sleekback
Low scoop back with adjustable straps for superior fit. Maximum back exposure & high leg.

Crossback/X Back
Wide straps with crossover formation for a secure fit.

V Back
Superior figure support with V shape back detailing.

Legsuit
Sports back legsuit has added bust support and wide straps for a secure fit.

IT

Hi Front
Il nostro modello Hi Front offre più copertura frontale pur mantenedo la schiena scoperta, dotato di una chiusura a clip di rapida apertura.

Sleekback
Scollatura sulla schiena più bassa del classico scoopback. Spalline regolabili e sgambatura alta.

Crossback/X Back
Ampie spalline con incrocio “crossover” per una vestibilità sicura.

V Back
Supporto per la parte alta del corpo con dettagli a V sulla schiena.

Legsuit
Back sportivo e sgambatura parigamba con supporto sotto al seno interno e spalline larghe per una vestibilità sicura.

DE

Hi Front
Unser Hi-Front-Stil bietet mehr abdeckung mit freiliegendem rücken und clipverschluss.

Sleekback
Niedrige rückenpartie mit verstellbaren trägern für eine hervorragende Passform. Maximaler rückenausschnitt und hohes bein.

Crossback/X Back
Breite Riemen mit Überkreuzung für einen sicheren sitz.

V Back
Hervorragende figurunterstützung mit V-förmigem rückenausschnitt.

Legsuit
Sport Back Legsuit mit zusätzlicher bruststütze und breiten Trägern für einen sicheren Sitz.

FR

Hi Front
Design qui offre plus de couverture avec le dos exposé et fermeture à clip.

Sleekback
Dos échancré avec bretelles réglables pour un ajustement supérieur. Exposition arrière maximale et jambe haute.

Crossback/X Back
Bretelles larges avec formation croisée pour un ajustement sûr.

V Back
Soutien supérieur de la silhouette avec détails arrière en forme de V.

Legsuit
La combinaison de sport donne un soutien supplémentaire de la poitrine et de larges bretelles pour un ajustement sûr.

ES

Hi Front
El estilo de nuestro Hi Front ofrece una mayor cobertura, con espalda descubierta y cierre de clip.

Sleekback
Espalda baja con tirantes regulables para un ajuste superior. Máxima exposición trasera y altura de pierna alta.

Crossback/X Back
Tirantes anchos cruzados para un ajuste excelente.

V Back
Proporciona un mayor ajuste con detalle en forma de V en la espalda.

Legsuit
El traje deportivo con espalda ha agregado soporte para el busto y correas anchas para un ajuste seguro.

MEASURING GUIDE

GUIDA ALLE MISURAZIONE
MESSANLEITUNG / GUIDE DE
MESURE / GUÍA DE TALLAS

WOMENS MEASURING GUIDE

GUIDA ALLA TAGLIA DELLA DONNA / DAMEN GRÖSSENBESTIMMUNG
GUIDE DES TAILLES FEMMES / GUÍA DE TALLAS PARA MUJERES

EN

1. CHEST
Measure in front of a mirror, turning to the side to ensure the tape measure is straight around the body. Keep arms down, measure below shoulders (ideally wearing a non-padded bra to allow for the natural fall of the breast).

2. WAIST
Measure around the natural waistline (just below the bottom of the rib cage).

3. HIPS
With the feet together measure around the fullest part.

4. BODY LOOP
Start from the top of the shoulder down the body over the bust and through the legs. Continue over the bottom and meet at the starting shoulder point.

IT

1. PETTO
Prendere le misure davanti ad uno specchio, girandosi di lato per assicurarsi che il metro sia dritto intorno al corpo. Tenere le braccia in basso, misurare sotto le spalle (idealmente indossando un reggiseno non imbottito per avere una posizione reale e naturale del seno).

2. VITA
Misurare intorno alla vita naturale (appena sotto la parte inferiore della gabbia toracica).

3. FIANCHI
Con i piedi uniti misurate intorno alla parte più larga.

4. LUNGHEZZA CORPO (ANELLO)
Inizia dalla parte superiore della spalla lungo il corpo sopra il busto e attraverso le gambe. Continua sul fondo e incontra il punto di partenza della spalla.

DE

1. BRUST
Messen Sie vor einem Spiegel und drehen Sie sich dabei zur Seite, um sicherzustellen, dass das Maßband gerade um den Körper verläuft. Halten Sie die Arme unten, messen Sie unterhalb der Schultern (idealerweise tragen Sie einen ungepolsterten BH, um den natürlichen Fall der Brust zu berücksichtigen).

2. TAILLE
Messen Sie um die natürliche Taille herum (knapp unter dem unteren Ende des Brustkorbs).

3. HÜFTE
Messen Sie mit den Füßen zusammen um die vollste Stelle.

4. KÖRPERLÄNGE (LOOP)
Beginnen Sie von der Oberseite der Schulter den Körper entlang über die Brust und durch die Beine. Fahren Sie über den Boden fort und treffen Sie sich am Anfangsschulterpunkt.

FR

1. POITRINE
Mesurez devant un miroir, en vous tournant sur le côté pour vous assurer que le ruban à mesurer est bien droit autour du corps. Gardez les bras baissés, mesurez sous les épaules (idéalement en portant un soutien-gorge non rembourré pour permettre la chute naturelle de la poitrine).

2. TAILLE
Mesurez autour de la taille naturelle (juste en dessous du bas de la cage thoracique).

3. HANCHES
Avec les pieds serrés, mesurez autour de la partie la plus large.

4. LONGUEUR DU CORPS (BOUCLE)
Commencez par le haut de l'épaule en descendant le long du corps en passant par le buste et en passant par les jambes. Continuez par le bas et rejoignez le point d'épaule de départ.

ES

1. PECHO
Toma las medidas delante de un espejo colocándote de lado para asegurarte de que el metro se te ajusta perfectamente al cuerpo. Sin levantar los brazos, toma la medida por debajo de los hombros (lo más recomendable es llevar un sujetador sin relleno para que el pecho caiga de forma natural).

2. CINTURA
Toma la medida a la altura de la cintura (justo debajo de la parte inferior de las costillas).

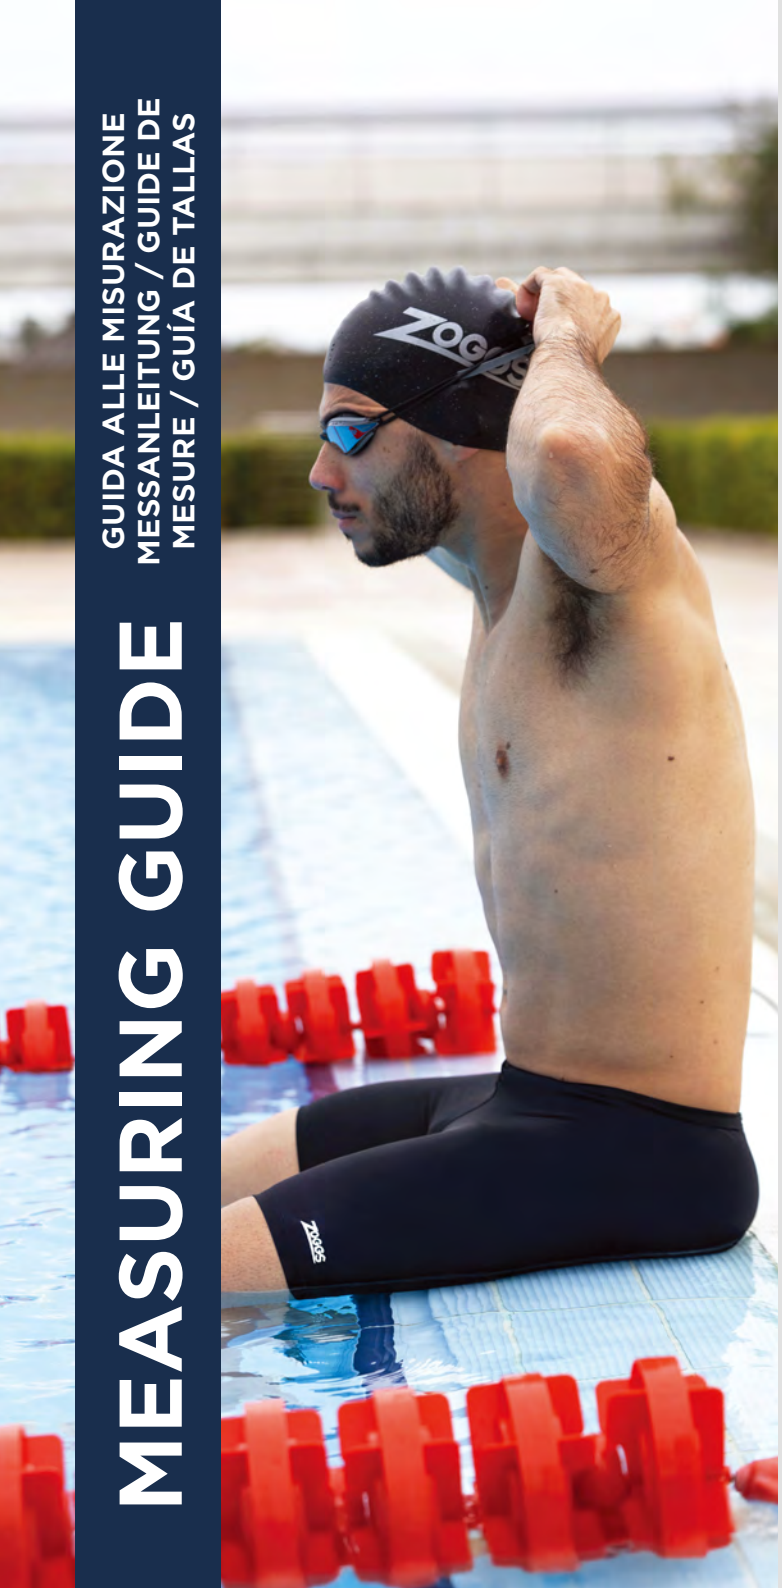

3. CADERAS
Junta los pies y toma la medida en la parte más ancha.

4. LONGITUD DEL CUERPO (BUCLE)
Comience desde la parte superior del hombro, baje por el cuerpo, pase por el busto y pase por las piernas. Continúe por la parte inferior y reúnase en el punto inicial del hombro.

GUIDA ALLA TAGLIA DI BAMBINI E RAGAZZE JUNIOR / KINDER UND JUNIOR MÄDCHEN GRÖSSENBESTIMMUNG / GUIDE DES TAILLES ENFANTS ET JUNIORS / GUÍA DE TALLAS PARA NIÑAS Y NIÑAS JÚNIOR

EN

1. HEIGHT
With no shoes on, put your feet together flat on the floor. Measure from the top of the head to the ground.

2. CHEST
Measure in front of a mirror, turning to the side to ensure the tape measure is straight around the body. Keep arms down, measure below shoulders.

3. WAIST
Measure around the natural waistline (just below the bottom of the rib cage).

IT

1. ALTEZZA
Senza scarpe, unite i piedi sul pavimento. Misurare dalla sommità della testa al suolo.

2. PETTO
Misurare davanti a uno specchio, girandosi di lato per assicurarsi che il metro sia dritto intorno al corpo. Tenere le braccia in basso, misurare sotto le spalle.

3. VITA
Misurare intorno alla vita naturale (appena sotto la parte inferiore della gabbia toracica).

DE

1. KÖRPERGRÖSSE
Stellen Sie ohne Schuhe die Füße zusammen flach auf den Boden. Messen Sie von der Oberseite des Kopfes bis zum Boden.

2. BRUST
Messen Sie vor einem Spiegel und drehen Sie sich dabei zur Seite, um sicherzustellen, dass das Maßband gerade um den Körper verläuft. Halten Sie die Arme unten, messen Sie unterhalb der Schultern.

3. TAILLE
Messen Sie um die natürliche Taille herum (knapp unter dem unteren Ende des Brustkorbs).

FR

1. HAUTEUR
Sans chaussures, mettez vos pieds serrés à plat sur le sol. Mesurez du haut de la tête au sol.

2. POITRINE
Mesurez devant un miroir, en tournant sur le côté pour vous assurer que le ruban à mesurer est bien droit autour du corps. Gardez les bras baissés, mesurez sous les épaules.

3. TAILLE
Mesurez autour de la taille naturelle (juste en dessous du bas de la cage thoracique).

ES

1. ALTURA
Sácate los zapatos y junta los pies, colocándolos totalmente planos en el suelo. Toma la medida desde la parte superior de la cabeza hasta el suelo.

2. PECHO
Toma las medidas delante de un espejo colocándote de lado para asegurarte de que el metro se te ajusta perfectamente al cuerpo. Sin levantar los brazos, toma la medida por debajo de los hombros.

3. CINTURA
Toma la medida a la altura de la cintura (justo debajo de la parte inferior de las costillas).

OUTDOOR SWIMMING

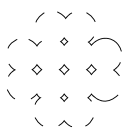

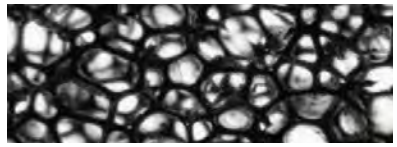

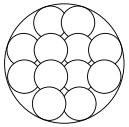

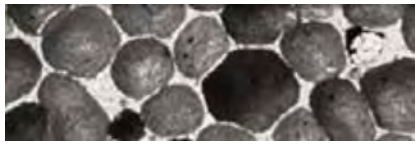

OUTDOOR SWIMMING
WETSUIT TECHNOLOGY

We have a range of wetsuits for each type of swimmer and athlete from beginners to competitive and professional athletes.

Each suit is made with particular features to cover every swimmer's demand. Our neoprene considers qualities such as thickness, elasticity and surface type to guarantee buoyancy and flexibility. For example using aircell neoprene panels on the front for buoyancy and lighter, thinner neoprene on the shoulders and torso for flexibility and freedom of movement.

FOAM QUALITY

OPEN - CELL FOAM	CLOSED - CELL FOAM

SUPERLITE

Made with a non petroleum base, this neoprene raw material has a closed cell structure. Suitable for all surface water sports. Lighter than HD foam by about 10%, stretchier by more than 15%. Softer, easy to put on and take off, **allowing for a better fit and freedom of movement**.

HD HI-DENSITY

Made with a non petroleum base neoprene raw material closed cell structure. Suitable for all types of water sports, diving, boots, gloves and accessories.

Strength	●●●●○
Flexibility	●●○○○
Buoyancy	●●○○○

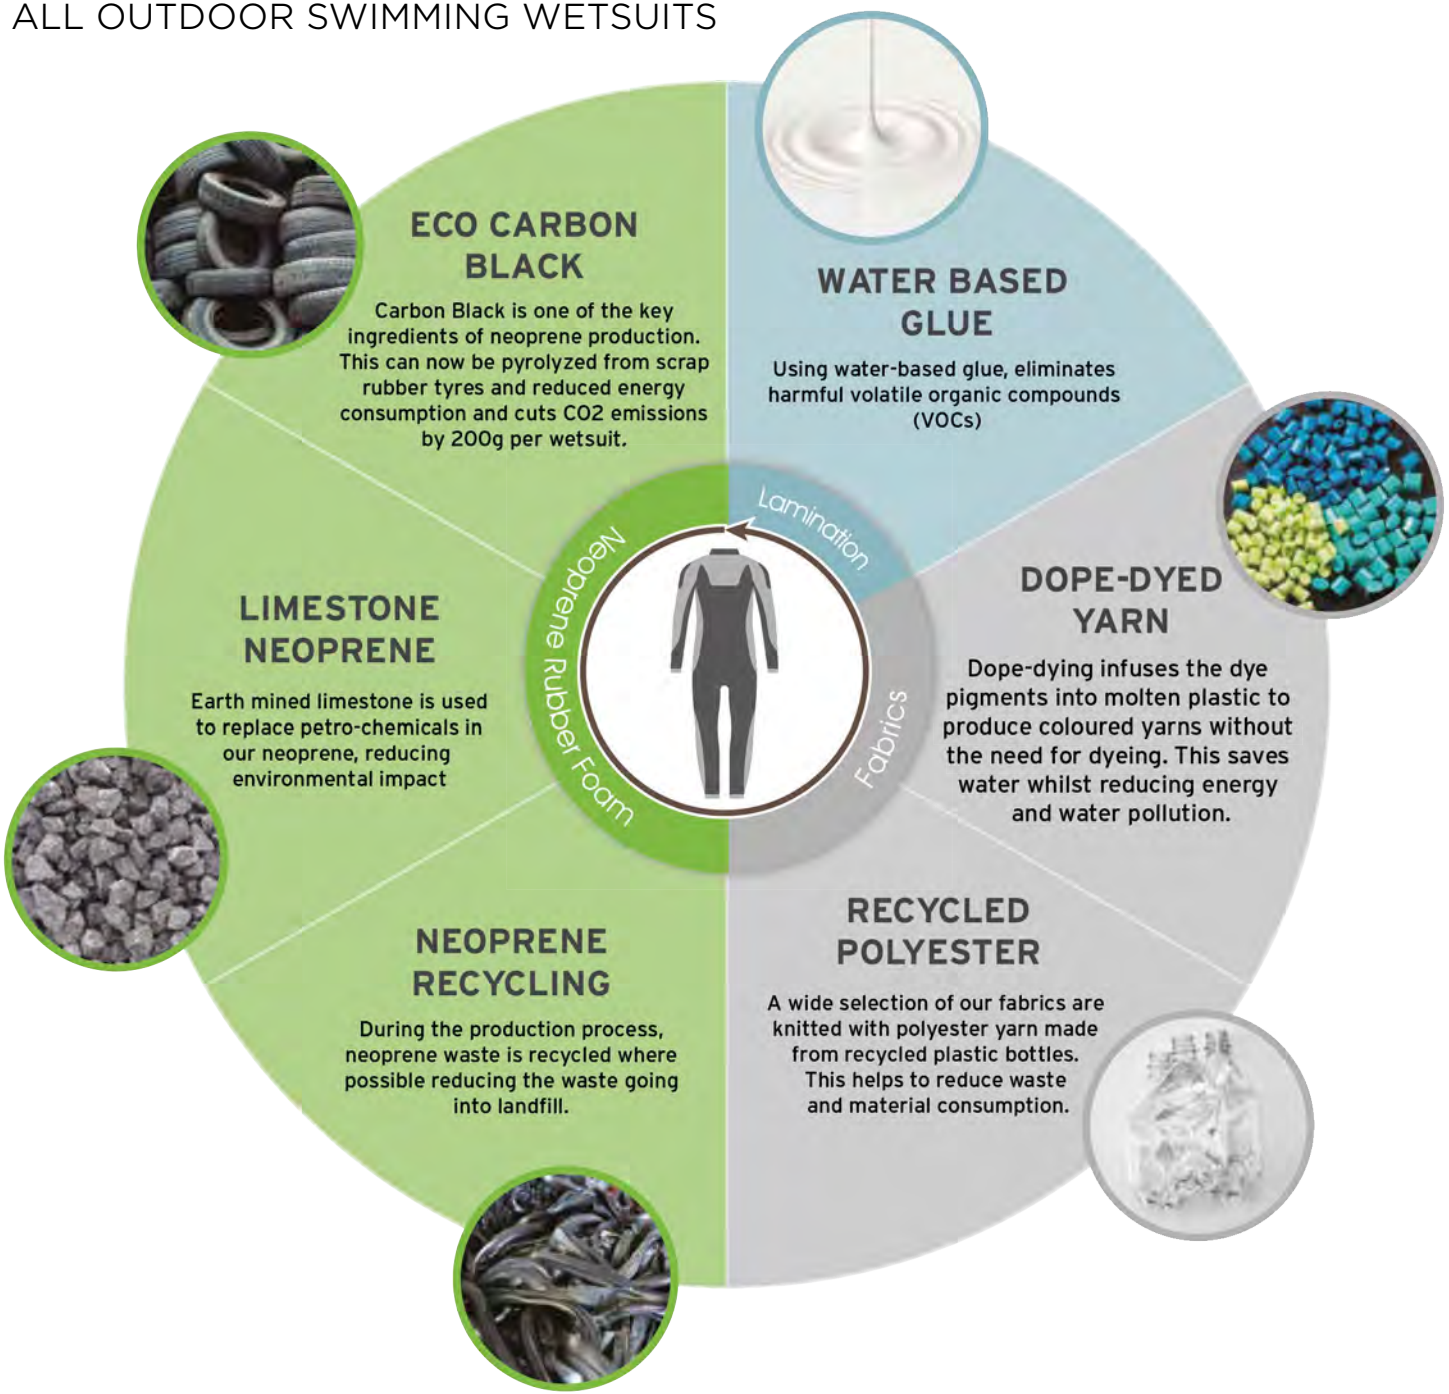

XHD EXTREME HI-DENSITY

Specialized strength material based as well on non petroleum base neoprene made by increasing the density and settings during the foaming process. The foam can reach the thinnest thickness of 0.5 mm.

Strength	●●●●●
Flexibility	●●●○○
Buoyancy	●●●○○

CUSTOMISING YOUR **CUFF LENGTH**

There are two bartacks indicating the two adjustment options which allow you to cut without fraying the seam. The bartacks are positioned to keep the perfect shape of your cuff.

You will need a sharp pair of scissors, a ruler and a pencil or marker pen.

1

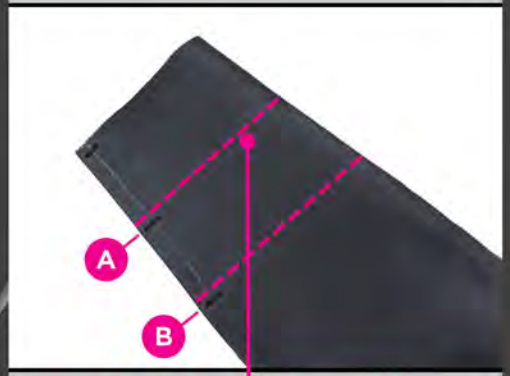

Before adjusting your wrist and ankle lengths please make sure you do not cut the bartack. Cutting the bartack will cause fraying and invalidate your warranty.

Choose your customised wrist length (from bartack **A** up to bartack **B**).

Top tip: consider the position of your sportswatch.

Choose your customised ankle length (from bartack **A** up to bartack **B**).

Top tip: choose the shorter length for quicker transition or if you prefer a 3/4 leg suit.

Bartack A

This example highlights the two bartack options

2

Before cutting, draw a line to connect your two chosen bartacks on the front and the back. This should be slightly above the bartack.

Top tip: check the measurement using a ruler along the edge of the cuff according to the length you selected.

Bartack A

This example cuts above bartack A

3

Snip above the bartack on each side of the cuff before cutting the full length.

Top tip: This allows easy access for the scissors to cut one layer of neoprene at a time.

Bartack A

This example cuts above bartack A

4

Insert the scissors into one of the snip cuts, then continue to cut along the line until you reach the other snip cut. **Rotate the cuff to the other side** as you continue to cut.

Top tip: **DO NOT CUT** along the bartack seam.

This example cuts above bartack A

Please note: Customising outside of these guidelines will invalidate the warranty.

WETSUIT FEATURES

YAMAMOTO

EN YAMAMOTO is the highest grade neoprene available. Designed as a comfortable second skin and made from environmentally friendly Limestone. The rubber is high-quality, flexible and offers thermal insulation.

YAMAMOTO has a completely closed cell structure (honeycomb structure), has extremely low density (lightweight), high flexibility, and excellent heat insulation. According to the intended use and environment, it can provide high-level, high-quality materials with 3 different kind of strength and flexibility.

IT YAMAMOTO è il neoprene di livello maggiore disponibile. Progettato come una seconda pelle confortevole e realizzato con roccia calcare a basso impatto ambientale. La gomma è di alta qualità, flessibile e offre isolamento termico.

Yamamoto ha una struttura a celle completamente chiuse (struttura a nido d'ape), una densità estremamente bassa (leggerezza), un'elevata flessibilità e un eccellente isolamento termico. A seconda dell'uso e dell'ambiente cui è destinato, può fornire materiali di alto livello e di alta qualità con 3 diversi tipi di resistenza e flessibilità.

DE YAMAMOTO ist das hochwertigste Neopren auf dem Markt. Entwickelt als komfortable zweite Haut und hergestellt aus umweltfreundlichem Limestone. Der Gummi ist hochqualitativ, flexibel und bietet Wärmeisolierung.

YAMAMOTO hat eine vollständig geschlossene Zellstruktur (Wabenstruktur), eine extrem niedrige Dichte (geringes Gewicht), hohe Flexibilität und eine hervorragende Wärmeisolierung. Je nach Verwendungszweck und Umgebung kann es hochwertige Materialien mit 3 verschiedenen Arten von Stabilität und Flexibilität bieten.

FR YAMAMOTO est le néoprène le plus qualitatif disponible. Conçu comme une seconde peau et fabriqué à partir de calcaire, plus respectueux de l'environnement. Le caoutchouc est de haute qualité, flexible et offre une isolation thermique.

Le néoprène Yamamoto a une structure complètement fermée (structure nid d'abeilles) une densité extrêmement faible (léger), une grande flexibilité et une excellente isolation thermique. Selon l'utilisation prévue et l'environnement, il peut fournir des matériaux de haut niveau et de haute qualité avec 3 types différents de résistance et de flexibilité.

ES YAMAMOTO es el neopreno disponible de mayor casidad. Diseñado como una cómoda segunda piel y fabricado con piedra caliza respetuosa con el medio ambiente. El caucho es de alta calidad, flexible y ofrece aislamiento térmico.

Yamamoto tiene una estructura celular completamente cerrada (estructura en forma de panal de abeja), tiene una densidad extremadamente baja (ligera), alta flexibilidad y un excelente aislamiento térmico. De acuerdo con el uso previsto y el entorno, puede proporcionar materiales de alta calidad y alto nivel con 3 tipos diferentes de resistencia y flexibilidad.

40 YAMAMOTO

EN Best in class for flexibility. The more elastic and therefore more delicate.
Available in different thicknesses from 1mm to 5mm.

IT Il migliore della categoria per flessibilità, più elastico e quindi più Delicato.
Disponibili in diversi spessori, da 1mm a 5mm.

DE Das Beste in seiner Klasse, was die Flexibilität angeht: elastischer und daher auch Empfindlich. In verschiedenen Dicken von 1mm bis 5mm erhältlich.

FR Le meilleur de sa catégorie en termes de flexibilité. Le plus élastique et donc le plus délicat. Disponible en différentes épaisseurs de 1mm à 5mm.

ES El mejor en cuanto a flexibilidad. El más elástico y por lo tanto más Delicado.
Disponibles en diferentes espesores desde 1mm hasta 5mm.

39 YAMAMOTO

EN A good balance between elasticity and strength.
Available in different thicknesses from 1mm to 5mm.

IT Un buon equilibrio tra elasticità e resistenza.
Disponibili in diversi spessori, da 1mm a 5mm.

DE Ein ausgewogenes Verhältnis zwischen Elastizität und Festigkeit.
In verschiedenen Dicken von 1mm bis 5mm erhältlich.

FR Le plus résistant.
Disponible en différentes épaisseurs de 1mm à 5mm.

ES Buen equilibrio entre elasticidad y resistencia.
Disponibles en diferentes espesores desde 1mm hasta 5mm.

38 YAMAMOTO

EN The most durable neoprene providing a comfortable fit.
Available in different thicknesses from 1mm to 5mm.

IT Il neoprene più resistente che offre una vestibilità comoda.
Disponibili in diversi spessori, da 1mm a 5mm.

DE Das haltbarste Neopren sorgt für eine bequeme Passform.
In verschiedenen Dicken von 1mm bis 5mm erhältlich.

FR Le néoprène le plus durable offrant un ajustement confortable.
Disponible en différentes épaisseurs de 1mm à 5mm.

ES El neopreno más duradero que proporciona un ajuste cómodo.
Disponibles en diferentes espesores desde 1mm hasta 5mm.

QUICK TRANSITION CUFFS

EN Soft stretchy material at the cuff (both arms and legs) for a quick and easy exit.

IT Materiale morbido ed elastico sul polsino (sia delle braccia che delle gambe) per una vestizione facile e veloce.

DE Weiches, elastisches Material an den Manschetten (an Armen und Beinen) für einen schnellen und einfachen Ausstieg.

FR Matériau extensible doux aux extrémités (bras et chevilles) pour une sortie rapide et facile.

ES Material elástico suave en el puño (tanto brazos como piernas) para poderse quitar el neopreno rápido y fácilmente.

REVERSE ZIP

EN Reverse-pull YKK zipper with durable leash for easy on/off and quick transitions.

IT Cerniera YKK a comando inverso con resistente cinturino per una facile vestizione e transizioni rapide.

DE Umgekehrter YKK-Reißverschluss mit strapazierfähiger Leine für einfaches An - und Ausziehen und schnelle Wechsel.

FR Fermeture à glissière YKK avec un cordon durable pour faciliter les mouvements et les transitions rapides.

ES Cremallera YKK de tirador inverso con correa duradera para ponérselas y quitárselas fácilmente y para hacer las transiciones más rápidas.

CUSTOMISABLE CUFF LENGTH

EN Customised legs and arms. The tear resistant material allows you to customise your suit to your desired cuff length, with its easy 'do it yourself' system.

IT Lunghezza delle gambe e braccia personalizzabili. Il materiale resistente agli strappi consente di personalizzare la muta in base alla lunghezza del polsino desiderata, grazie al facile sistema "fai da te".

DE Individuell anpassbare Beine und Arme. Das reißfeste Material ermöglicht es Ihnen, Ihren Anzug mit einem einfachen "Do-it-yourself"-System auf die gewünschte Manschettenlänge zuzuschneiden.

FR Longueure des jambes et bras personnalisables. Le matériau résistant à la déchirure vous permet d'ajuster votre combie à la longueur de vos poignets et de vos chevilles grâce à son système facile 'do it yourself'.

ES Piernas y brazos personalizables. El material resistente al desgarro te permite personalizar tu traje modificando la longitud de los manguitos, con su sencillo sistema "hazlo tu mismo".

HYPEX CONSTRUCTION

EN The panel architecture is designed with multiple thicknesses, whilst the position of the cuts provide unrestricted movement and maximum performance.

IT L'architettura del pannello è progettata con spessori multipli, mentre la posizione dei tagli garantisce un movimento senza restrizioni e il massimo delle prestazioni.

DE Die Panel-Architektur ist mit unterschiedlichen Stärken konzipiert, während die Position der Schnitte für uneingeschränkte Bewegungsfreiheit und maximale Performance sorgt.

FR L'architecture des panneaux est conçue avec plusieurs épaisseurs, tandis que la position des coupes offre un mouvement sans restriction et des performances maximales.

ES La arquitectura de los paneles está diseñada con múltiples espesores, mientras que la posición de los cortes proporciona un movimiento sin restricciones y un rendimiento máximo.

BREATHE OUT! PANEL

EN Innovative breathable system integrated to let the back breathe and avoid the double zip system.

IT Innovativo sistema traspirante integrato per far respirare la schiena ed evitare il sistema a doppia zip.

DE Innovatives atmungsaktives System integriert, um den Rücken atmen zu lassen und das doppelte Reißverschluss-System zu vermeiden.

FR Système respirant innovant intégré pour laisser le dos respirer et éviter le système à double zip.

ES Innovador sistema transpirable integrado para dejar que la espalda transpire mejor y así evitar el sistema de doble cremallera.

---

aero dome

EN Yamamoto technology guarantees a combination of maximum flexibility and balance for greater stability. Air bubbles locked into the 3 layers of neoprene creates added buoyancy.

IT La tecnologia Yamamoto garantisce una combinazione di massima flessibilità ed equilibrio per una maggiore stabilità. Le bolle d'aria bloccate nei 2 strati di neoprene creano una maggiore galleggiabilità.

DE Yamamoto-Technologie garantiert eine Kombination aus maximaler Flexibilität und Balance für mehr Stabilität. Luftblasen, die in den 2 Schichten Neopren eingeschlossen sind, sorgen für zusätzlichen Auftrieb.

FR La technologie Aero Dome de Yamamoto garantit une combinaison de flexibilité et d'équilibre pour une plus grande stabilité. Les bulles d'air enfermées dans les 2 couches de néoprène créent une flottabilité accrue.

ES La tecnología Yamamoto garantiza una combinación de máxima flexibilidad y equilibrio para una mayor estabilidad. Las capsulas de aire entre las 2 capas de neopreno ofrecen una mayor flotabilidad.

aircell

EN Extra buoyancy, compare to a standard neoprene, given from the air bubbles locked into the material.

IT Galleggiabilità extra, rispetto al neoprene standard, data dalle bolle d'aria bloccate nel materiale.

DE Zusätzlicher Auftrieb im Vergleich zu normalem Neopren, der durch die im Material eingeschlossenen Luftblasen entsteht.

FR Flottabilité supplémentaire par rapport à un néoprène standard, donnée par les bulles d'air enfermées dans le néoprène.

ES Flotabilidad adicional en comparación con un neopreno estándar, gracias a las burbujas de aire insertadas en el material.

SCRATCH RESISTANT

EN Anti-scratch printing creates protection on the lower area of the suit preventing grazing from rocks.

IT La stampa antigraffio protegge l'area inferiore della muta impedendo l'abrasione delle roccie.

DE Der Anti-Kratz-Druck schützt den unteren Bereich des Anzugs vor Abschürfungen durch Felsen.

FR Le revêtement anti-rayures protège la partie inférieure de la combinaison contre les frottements extérieurs.

ES El estampado antiarañazos crea una protección en la parte inferior del traje que evita la abrasión de las rocas.

---

2 -ZIP OPENING

EN 2 Zips one at the front and one at the rear for easy removal. This feature allows a "staged" approach to ventilation during the running sections within a SwimRun race.

IT 2 cerniere, una anteriore e una posteriore, per una facile rimozione. Questa caratteristica consente un approccio "graduale" alla ventilazione durante le sezioni di corsa all'interno di una gara di SwimRun.

DE 2 Reißverschlüsse, einer vorne und einer hinten, zum einfachen Öffnen. Diese Funktion ermöglicht eine "gestaffelte" Ansatz zur Belüftung während der Laufabschnitte innerhalb eines SwimRun Rennens.

FR 2 zips, un à l'avant et un à l'arrière pour un retrait facile. Cette fonction permet de répondre à toutes situations lors d'un swimrun.

ES 2 cremalleras, una en la parte delantera y otra en la parte trasera para quitarse el neopreno de forma más sencilla. Esta caracterísitica también permite una ventilación personalizada durante las secciones de carrera de un SwimRun.

Predator Ultra FS is Zoggs' top-of-the-line wetsuit for triathletes who desire ultimate buoyancy for the perfect hydrodynamic position. Predator Ultra FS combines this buoyancy with extreme flexibility, core compression and a reverse closure system to elevate your performance in both the water and transition. YAMAMOTO 40 neoprene is used in 5 different thicknesses, ranging from 1.5mm to 5mm, for an extremely flexible fit that is both tight and comfortable. 2mm neoprene around the arms and shoulders is employed to provide unrestricted movement for maximum stroke efficiency and performance. 5MM AERODOME panels, also in YAMAMOTO 40, are strategically placed on the upper frontal part to provide extra buoyancy, keeping your body high in the water to increase your speed. Additional AERODOME panels on the shins keep your feet high to ensure the optimal swim position. CORE COMPRESSION provides a tight and supported fit around your core and hips to provide stability and reduce fatigue during your swim. REVERSE ZIP closure system, featuring a reverse-pull YKK zipper and a durable strap, offers a convenient and efficient on/off process to save you valuable time in transition. QUICK TRANSITION CUFFS also feature to allow fast removal of the wetsuit. CUSTOMISABLE CUFF LENGTH is featured in this wetsuit which allows you to customise the legs and arms of your wetsuit to your desired cuff length. This is thanks to an easy 'do it yourself' system, made possible by our tear-resistant material. Please refer to the guide at the start of the catalogue. Gloves for donning/doffing your wetsuit are included.

Bottom: Polyamide 74% | Elastane 26%
Mesh: Polyester 82% | Elastane 18%

Predator Trisuit Ultra is developed and designed to offer maximum comfort, even over long distances. Made with highly technical, lightweight, quick-drying Italian fabric, this trisuit offers excellent compression, enhanced swim comfort and superior aerodynamic efficiency. There are thermo bonded seams in key areas and seamless armpits help to prevent friction and skin irritation. Front opening with CAM LOCK ZIPPER technology ensures the zip stays closed during use, whilst allowing easy and fast one-handed opening. Featuring a Triathlon-specific high performance SEAT PAD with low water absorption, this offers maximum support on the bike while remaining virtually undetectable when running. GRIPPER BANDS keep the sleeves and legs in place during the race for a tight, streamlined fit improving aerodynamics. This design uses stretch mesh in the back, sides, and armpits to maximize airflow and keep cool, while still delivering targeted optimal compression. Two REAR POCKETS for nutrition storage. The longer arms and legs will create aero benefits by smoothing airflow over the body. All these features will help provide an incredible time-saving performance.

Introducing our Openwater Sleeveless Shorty Wetsuit, meticulously crafted to feel like a second skin, offering unparalleled comfort and freedom of movement in the water. Designed with a lower crew neck for enhanced comfort during extended wear. STRUCTURE: Engineered with precision, our wetsuit features YAMAMOTO 38 neoprene ranging from 2.5mm to 1.5mm in thickness, providing the ideal combination of flexibility and durability. The double-lined neoprene strategically reinforces critical areas, ensuring longevity and resilience against stress. Experience the perfect balance between elasticity and strength for a superior swimming experience. CLOSURE SYSTEM: Equipped with a YKK zip, our wetsuit boasts a reliable and comfortable closure system. Enjoy effortless on and off functionality, allowing you to focus on your performance without any distractions. Unleash your potential with our Openwater Sleeveless Shorty Wetsuit, designed to elevate your performance and comfort during every aquatic adventure.

Scout Tour FS is designed for open water enthusiasts who enjoy a variety of water sport activities. Whether you are swimming, paddle boarding or kayaking, the Scout Tour FS provides comfort, mobility and insulation, allowing you to make the most of your day out in the open water. COMFORT is afforded whatever open water activity you choose to undertake thanks to stitch-free critical areas. Enjoy a chafe-free experience with unimpeded mobility. CLOSURE SYSTEM featuring a durable YKK zip ensures a secure fit and easy on/off. A smooth flap covering the zip provides additional comfort, mobility and warmth. CUSTOMISABLE CUFF LENGTH is featured in this wetsuit which allows you to customise the legs and arms of your wetsuit to your desired cuff length. This is thanks to an easy 'do it yourself' system, made possible by our tear-resistant material. Please refer to the guide at the start of the catalogue.

Pack quantity: 1

Featuring a cutting-edge design, this Swimrun wetsuit is a versatile and reliable choice for athletes of all levels. Made with 4mm Aircell neoprene, this wetsuit offers exceptional buoyancy and positioning in the water, thanks to the Glideskin surface on the chest and quad area. The 1.5mm Glideskin neoprene on the arms ensures flexibility and freedom of movement, while the 2mm double face flex neoprene on the hips and thighs enhances running performance. This wetsuit is equipped with inner mesh pockets and a back pocket with a zipper, allowing you to carry all your essentials with ease. The front and back zipper closure system provides optimal breathability during running, while the extra nylon tow loops on the front and back add convenience and functionality. With neoprene cuffs on both arms and legs, this wetsuit creates a tight seal to prevent leaks and minimize drag in the water. Whether you're facing challenging weather conditions or exploring diverse water environments, this Swimrun wetsuit is designed to deliver top-notch performance and comfort.

The wetsuit is designed for optimal performance in both swimming and running activities. Its structure includes a 2mm nylon covered neoprene base that allows for great mobility and free movement in the hips area during running. The durable construction features nylon covered neoprene on both the inside and outside of the suit. Additionally, 3mm panels on the chest and upper thighs provide increased buoyancy and a good swim position when swimming with shoes. The wetsuit includes two inner pockets for easy access to extra equipment, as well as added nylon loops for fastening tow lines and accessories. For added security, a small and effective whistle is included with the suit. The closure system of the wetsuit includes front and back zippers, allowing for easy opening while running. This wetsuit is the perfect choice for athletes looking to excel in both swimming and running activities.

Pack quantity: 1

Designed specifically for open water training and races. The jammers lifts your hips up like a wetsuit and helps you find the right water position. You will achieve same effect as using a pull buoy, but it allows you to kick and turn naturally. The Buoyancy Flex Jammers has a front 5 mm base of extremely flexible GLIDESKIN very useful in the swimming session while the back 3 mm bi-lined neoprene has been conceived to improve abrasive endurance and to reduce the risk of scratch. More elasticity. Drawstrings at the waist. Unisex model.
